PARIS.

All Hopes of Peace Abandoned, but the Masons to make Another Effort—The Firing Continues with no Material Change in the Situation—Favre Gone to Meet Bismarck, Etc.

All Oaths Abolished.

PARIS, May 5.—A decree has been issued by the Commune abolishing all political and professional oaths.

How Moulon was Captured.

The Official Journal of the Commune says that the Federal position at Moulon La Quet was surprised in consequence of the treachery of some of the garrison, who sold the password to the Versaillists. The Journal adds that the place has been recaptured, as has also the railway station at Clamort.

The Official Journal says the Chateau D'Issy was set fire to and burned by Federal shells.

The same Journal admits that the Communists have suffered serious losses in prisoners and cannon. It also admits that the Versaillists have advanced to and constructed barricades at Neuilly. Levallois and Neuilly have been set fire to by shells from Fort Mont Valerein.

VERSAILLES, May 5.—The Communist statement that the Federal troops have reoccupied Clamort is false.

Favre's Mission.

The journey of Favre and Pouyer Quertier to Frankfort is for the purpose of arranging difficulties which have arisen in the negotiations at Brussels, and hastening the signing of the treaty of peace.

The firing continues along the lines to-day, but there is no change in the position of the belligerents.

More Efforts of Masons for Peace.

LONDON, May 5.—A dispatch from Havre says the Free Masons of that city and Fecamp have agreed to make a joint entreaty to the Versailles Government and the Paris Commune for the institution of negotiations looking towards peace.

Treachery in the City.

[World's Special.]

VERSAILLES, May 5.—Until now, Thiers has depended on the co-operation of a party outside Paris, who promised to rise up against the Commune the moment Thiers gave the signal. A movement was to have been made Tuesday night, but their courage failed at the last moment and nothing was done.

A Last Appeal.

Negotiations are now progressing for an armistice to effect a compromise, and, should these fail, Marshal McMahon will carry the city by assault.

All Hopes of Peace Abandoned.

LONDON, May 5.—The Times' special from Paris says: All hopes of peace have been abandoned. The delegations of Free Masons have gone to the provinces to agitate in favor of the Commune.

There was a constant heavy firing yesterday between the forts.

The Daily News' special dispatch says the Versailles forces are shelling Anteuil from a battery at Montreuil.

The Prussians allow provisions to enter Paris, which occasions uneasiness at Versailles.

The castle of D'Issy has been burned.

A letter to the Telegraph says that Gen. Rossel, the new Minister of War, defends the conduct of Gen. Cluseret.

The Republican Union League demands the negotiation or a truce for twenty days.

The railway station at Anteuil has been damaged by the fire of the Versailles batteries, and the inhabitants of the place are flying.

The Insurgent Losses since Friday.

In the bombardment, since Friday, the insurgents have lost two thousand men in killed, wounded and prisoners.

PARIS, May 5.—The Communists still hold Fort D'Issy, and are having it entrenched. The fort continues to fire slowly upon the Versaillists' batteries at Clamort and Bas Meudon, and receives in return a perfect hail of projectiles. Fort Vanvres also keeps up a slow fire, and is vigorously shelled by the Versaillists at Clamort and Chatillon.

The Assemblists have unmasked a formidable battery at Montreal, near St. Cloud, which menaces Anteuil, Pont du Jour and Passy.

VERSAILLES, May 5.—St. Germania has been taken possession of by the Versailles forces, who have established a battery there with which to shell the insurgent gunboats on the Seine. A naval combat is expected.

Fort Montrouge and Haute Bruyeres are constantly bombarded by the Versaillists' batteries at Chatillon, but without important result.

The Communists have occupied the trenches at Ville Juif.

Fort D'Issy replies sharply to the fire of the Versaillists' batteries.

A great movement is expected upon Neuilly and Levallois.

LONDON, May 5.—It is said that Prince Napoleon is in London.

Gen. Rossel Wounded.

A dispatch from Paris announces that General Rossel has been wounded in the shoulder.

BERLIN, May 5.—Bismarck has gone to Frankfort to confer with Favre, who has left Versailles to meet him.

VERSAILLES—Evening—May 5.—There was considerable firing around Fort D'Issy to-day, but nothing important was done. All attempts for conciliation are hopeless.

MISCELLANEOUS.

LIVERPOOL, May 5.—The steamship Corinthian has arrived.

A Royal Princess Dead.

VIENNA, May 5.—The Archduchess Maria Annunziada, daughter of ex-King Ferdinand II., of Naples and Sicily, and wife of the Archduke Charles of Austria, died at her residence in this city yesterday.

Dr. Livingstone Safe.

LONDON, May 5.—Earl Granville announced in the House of Lords to-night that the Government had received official dispatches confirming the reports of the safety of Dr. Livingstone, and also giving assurance that his immediate wants have been provided for.

The Lords passed the bill for protection of life in Ireland. In the House of Commons Viscount Enfield said that the Government was not aware of any correspondence passed between Paris and Berlin in 1866 relative to the alleged demand of Napoleon for the cession of Mayence.

The High Commission.

In reply to a question regarding the progress made by the Joint High Commission at Washington, Viscount Enfield said the convention had not yet been signed, but he was enabled to state that it had been agreed that the British claims should be heard by a special commission.

VIENNA, May 5.—A bill has been introduced in the Reichsrath extending autonomy to the province of Gallicia.

The Connecticut Election.

NEW HAVEN, CONN., May 5.—The Legislative Committee, to examine the vote for Governor, met here to-day to inquire into the Fourth-ward vote. The town clerk of New Haven was examined, and testified as to the whereabouts of the boxes since the election. He was asked to produce the Fourth-ward State box, but could not identify it. The moderator of the Fourth ward identified the box by the tally on the seal and other marks, and swore as to correctness of the count, how it was taken and reported. The registers identified the box by the same signs and swore to the accuracy of the checking, and certified to the check list produced in the evidence and swore to by the town clerk. The box was then produced and the votes recounted. In the box were found six packages for Jewell, three containing 100 ballots each; two, 50 each; one, 62, and sixteen scattering for him; total for Jewell, 479. For English five packages of 100 each, one of 96; one marked "scratched" of 112, and 14 scattering for him; total for English, 719. Jewell's vote recounts 100 less than the official returns. The recount for Representative gives the same result as the official returns—the Democrat, 607; Republican, 577. The committee will meet again Monday.

Death of the Railroad Mail Service's Head.

CHICAGO, May 5.—Mr. B. Armstrong, Superintendent of the railway mail service of the United States, died at his residence in this city this morning, aged 49 years. He was a native of Northern Ireland, and came to this country when a mere boy. He was a successful merchant in Baltimore in 1845, and became connected with the Postoffice Department at Washington in 1850, and in 1852 was appointed by Postmaster Isaac Cook as Assistant Postmaster of this city, and occupied that position for eleven years, being most of that time acting Postmaster. In 1864 he resigned to accept the position of special agent of the Postoffice Department, and while in that position organized the railway postal system, now in operation in all parts of the United States, and was appointed as its chief manager, and devoted his attention to that service up to the time of his death.

Death of a Distinguished Italian—The Ruth Poisoning—A Fearful Oath.

ST. LOUIS, May 5.—Antonio Curratto, an old citizen and grand secretary of the Italian Society of the United States, died here on Wednesday night.

Lawrence (Kansas) papers, in giving a further account of the supposed poisoning of Isaac M. Ruth, say that previous to the funeral Mrs. Ruth took her children into the room where the dead body of her husband was lying, and made them swear to avenge his death. She is stated to have said that she proposed to relieve the law of the necessity of punishing the guilty party. Her feelings toward Dr. Medlicott have apparently undergone an entire change. The contents of Mr. Ruth's stomach have not yet been analyzed. The proceedings of the coroner's inquest has not yet closed.

Large Fire in Cincinnati.

CINCINNATI, May 5.—Blymyer, Norton, & Co.'s extensive machine and agricultural works were burned to-night. The fire originated in the foundery and spread with fearful rapidity. The loss is estimated at $120,000, which is less than first supposed. The firemen succeeded in saving the warehouses, the main building. The loss was principally in patterns and work partially completed.

Galveston Quarantined.

GALVESTON, TEXAS, May 5.—By order of the Mayor, and in compliance with the Governor's proclamation, Galveston is quarantined from and after the 10th instant, and all vessels entering this port will be required to stop at the quarantine station for examination.

A heavy snow fell through Maine to the depth of five inches on Thursday night.

"BUSTED."

The Cosmo-Political Party Gone to Smash and Woodhull and Claflin Disgraced.

A BLOOD-Y DENOUEMENT.

NEW YORK, May 5.—The morning papers have the following: A curious case came up yesterday afternoon before Justice Ledewett in the Essex Market Police Court. It was an application for the issue of a warrant for the arrest of Jas. H. Blood, alias Dr. J. H. Harvey, the "Co." of the firm of Woodhull & Claflin. The application was made by Annie Claflin, mother of Mrs. Woodhull. Mrs. C. says in her affidavit that Blood, otherwise known as Dr. J. H. Harvey, occupied the same bed with her daughter Victoria, and that said Blood has been in her family for the last six years; that since his entrance into the family he has made every effort to corrupt and has corrupted not only her daughter Victoria, but through his machinations and intrigues has excited her daughter Tennessee, and entirely weaned them both from deponent. The deponent says that during the time she resided in the house she has often heard said Blood insist that her daughter, Tennessee, should make efforts to secure the attentions of different married gentlemen in order that said Blood and said Victoria and Tennessee might combinedly make money out of such persons, and the deponent says that she has known such married gentlemen who have been taken in and black-mailed in said house. She had often heard Blood, who is the receiver of all moneys that came into possession of the firm of Woodhull, Claflin & Co., say that no books of any account have been kept by said firm until very recently, and that in case any trouble should arise between dealers with said firm and themselves a great trouble would come upon said firm and that Broad street would be too hot for them. She further says she believes Blood is endeavoring to ruin her daughters, especially Tennessee, and that he has threatened her life. She does not feel safe from Blood, and prays he may be arrested and dealt with according to law. The affidavit is supported by others, and signed by Mr. and Mrs. Sparr, daughter and son-in-law of Mrs. Claflin. Mrs. Woodhull indignantly denies these assertions, and says it is merely an attempt to levy black mail. Her mother is old and weak-minded, and has been induced by some means to make the affidavit, which is a black and infamous lie.

Fisk, Jr., vs. the Union Pacific railroad and Credit mobilier, which was originally begun in the supreme Court, was filed this morning in the clerk's office of the U. S. Circuit Court under the recent order of removal. This is the case in which Fisk accused the Union Pacific Company, the Credit Mobilier, and other defendants, of forming a conspiracy to forward the interest of certain stockholders.

JO COBURN'S WIFE DIES OF TOO MUCH WHISKY.

The Coroner's jury this evening returned a verdict that Mrs. Coburn died from an inordinate use of whisky.

THE BEAUTIFUL SUICIDE.

There is circumstantial evidence that the beautiful lady who committed suicide at the Stevens House on Monday night was the wife of a man named John Roshardt, of this city. Her maiden name was Kate Harrington. She had recently left home, having had trouble with her family, and had written a letter telling of her determination to commit suicide.

MURDER AND PIRACY.

A morning paper publishes the following singular story: About two months ago it was rumored that the once famous yacht Maria, formerly the property of Commodore Stevens, of the New York Yacht Club, had been lost at sea, and it is now reported that the rumor was set afloat at the time to cover up the murder of the Captain, and the seizure of the vessel by the crew. It is said that two seafaring men who recently arrived in this city say that the Maria is running the Cuban blockade from a Southern port under the command of a Spanish captain, and that a rumor is current to the effect that Captain Manlin had been murdered by his crew. Steps have been taken to insure her seizure by the U. S. consular authorities in Cuba, San Domingo, New Providence, and Aspinwall. The Government has also, it is said, ordered U. S. cruisers to look out for the Maria.

LABOR CONVENTION.

The Labor Convention met at Cooper Institute to-night, at which the principal topic of discussion was the utility of traders' unions. E. H. Heywood, President of the New England Labor Reform League, thought that, as now constituted, traders' unions were injurious to the working classes. He condemned the claims of workingmen for ten hours' pay for eight hours' work as dishonest, and denounced the Government for robbing the nation to overpay its office-holders. The views of Mr. Heywood were sharply contested by Mr. Drury, of this city, and others. Opinions were generally expressed that trades, when better organized, should go into politics and make themselves felt. The convention will remain in session three days.

New York Stock and Money Market.

NEW YORK, May 5—P. M.

The receipts of cotton at all the ports for the week were 51,806 bales, exports 65,763 bales and stock on hand 467,625 bales.

The Gold market was dull but steady at 111¼@111⅜. Loans were made at from 1 to 2 per cent.

The gold clearances to-day, at the Gold Exchange Bank, were $22,000,000.

The shipments of specie to-morrow will be light.

The Government bond market was firm, closing at an advance of ⅛ per cent. on 5-20 issues.

In the Stock market the bulls made another attempt to advance prices, but without much success. The volume of business throughout the day was generally light and no large blocks of stock changed hands. The market had very much the appearance of a broker's market. Reading and Lake Shore were the strongest on the list. It is rumored that a scrip dividend on the latter has been received. Erie advanced a little at the close. Express shares are dull but firm. Stocks have been turned in several instances to-day at a charge of ⅛ per cent. for buyer's option for 60 days. The market closed steady.

Money was abundant at 5 per cent.

State bonds are dull but steady. Tennessees advanced a fraction at the second call.

Sterling exchange, bankers' bills, 110⅛.

WASHINGTON.

The Unsigned Treaty Submitted to the President—Speculations as to its Contents—Morton to Engineer it in the Senate, Etc., Etc., Etc.

[Special Telegraphic Correspondence of the Courier-Journal].

THE NEW TREATY SUBMITTED.

WASHINGTON, D. C., May 5.—The unsigned draft of the High Joint Commission treaty was submitted at the White House to the President and Cabinet, and Senators Morton and Cameron, two of the members of the Senate Committee on Foreign Relations, but with what result is unknown beyond the general understanding that it is to be signed on Monday. Among all the guessing and speculations, one point of the treaty seems to be generally agreed on, and that is the recognition of the claims of British subjects against citizens of the United States arising out of the late war. In fact, the denial that the treaty contains any such feature is quite absurd, when it is remembered that it was specially included in Minister Thornton's second letter to Secretary Fish, and accepted by him by order of the President. The class of claims generally known as the British cotton claims will, as far as they go, offset the amount conceded by the so-called Alabama claims.

[To the Associated Press.]

THE NEW TREATY AND ITS CONSIDERATION.

NEW YORK, May 5.—The Tribune's Washington correspondent telegraphed last night that Senators Morton and Cameron, in response to a telegraphic summons from the President, arrived here yesterday. They came in advance of the meeting of the Senate in order to become familiar with the treaty of the Joint High Commission, and to examine the papers and documents, which are very voluminous and intricate, in relation to the subjects of discussion between the English Government and our own. The treaty has been printed, confidentially, for the use of the Commissioners, and copies will at once be placed in the hands of all the members of the Foreign Relations Committee in the city, and also members of the Cabinet. Secretary Boutwell returned yesterday, two days earlier than expected, in order that he might participate in the examination of the treaty, which is to occupy the whole of the time of the Cabinet to-day. The commissioners adjourned until Saturday, in order to give the Cabinet time to examine all the conditions embraced in the treaty, and if the Cabinet shall suggest any amendment or change, the same will receive the attention of the commission on Saturday. It will then be signed in duplicate by all the members of the commission, on behalf of both governments, there being no dissatisfaction expressed by any member, and all being fully satisfied that the treaty is just, fair, and honorable to both governments. Every American member of the commission expresses his unhesitating belief that it will be ratified, and Judge Nelson, who is the only Democratic member, is enthusiastic in his admiration for its provisions. He says no fair-minded American, who examines this subject intelligently and with candor, can fail to approve the treaty in all its points.

SUMNER'S ACTION IN THE MATTER.

The report that Mr. Sumner is writing a speech in opposition to the treaty, and that he will take occasion in it to explain his unfriendly relations with Secretary Fish, are unfounded. Mr. Sumner has not seen the treaty, and he will not oppose it, unless it shall appear to his mind, after an examination, that it is unwise and defective. Senator Morton will probably have charge of the treaty in the Senate.

MORE ABOUT THE TREATY.

The Joint High Commission will not probably sign the treaty till Tuesday next. Among the few things positively known concerning it is that it will provide only for the adjudication of claims both of the United States and Great Britain arising from 1861 till the close of the war in 1865.

PROSPECTS FOR A FULL SENATE.

The probability is that there will be a full Senate on Wednesday next. Among those now or recently in Washington are Senators Morrill of Maine, Morton, Cameron, Casserly, Cole of California, Cragin, Howe, Pomeroy, Sawyer, Stockton, and Sumner. Senators Stewart and Nye of Nevada, and Corbett and Kelly of Oregon are within a few hours' travel of Washington.

PERSONAL.

WASHINGTON, May 5.—Senators Morton and Cameron arrived here this morning, and in the course of the forenoon, together visited the Executive Mansion, and had an interview with the President. Secretary Boutwell having returned to Washington resumed business at the Treasury Department this morning.

REPUBLICAN DEMONSTRATION.

The Republicans to-night held a torchlight procession, after which there was a complimentary serenade by the Republican General Committee to the officers of the new Territorial Government at the residence of Mr. Ordway, Sergeant-at-Arms of the House. Gov. Cook, Mr. Ordway, and others made speeches. President Grant had accepted an invitation to be present, but, just as he was on the eve of leaving the Executive mansion, the High Commission detained him by a visit.

PROBABLE TROUBLE WITH CHINA.

[Special to the Post.]

A Chinese tract, translated into English, has been received here. It abounds in the most horrible misrepresentation of the Christian religion, draws a fearful picture of the Chinese race if they longer allow it to have a foothold in their country. The belief is expressed here among high officials that news will be soon received from China which will cause some action on the part of the Administration on the question of a further continuance of diplomatic relations with that country.

THE DARIEN CANAL.

Survey of the Isthmus for the Proposed Route—The Results Unfavorable but the Route Practicable.

NEW YORK, May 4.—A special correspondent with the Darien surveying expedition sends full details regarding their operations, under date of April 25th. Although the survey of the Napipe route has not resulted favorably, it is hoped it would still be practicable, which it will undoubtedly be found ultimately. The distance from Cupica Bay to Atrato, along the bends of Napipe river, is sixty-nine and a half miles. In a straight line it is only twenty miles from Atrato. Napipe river flows through a mountainous country for about thirteen miles from the foot of the divide, and is supplied from Doguado river as a tributary. It is proposed to make thirteen locks from Doguado, eighteen miles from Atrato, to the divide; then to tunnel through and descend to the Pacific by nine locks. The survey occupied twenty-seven days. No intelligence has been received from the explorers up the Cue. It is certain they have met the party following the Paroulcheta river from Atrato. The elevation in that direction is likely to exceed that previously announced in regarding the route via Tuyra as impracticable. The party will return as they came. Those on this side intend drawing a line from the headwaters of the Cue. Great hardships have been experienced by the party moving along that river. Two-thirds of the men are down with fever. Over twenty seamen and macheteras are under medical treatment at Roca Paya. Only four men and an officer are able to advance to the divide. The entire party will return to Resaca in a fortnight. It is still hoped the route via Tuyra will prove successful.

Nilsson and the Thompson at Memphis.

MEMPHIS, May 5.—Nilsson sang at the Opera House to-night and Lydia Thompson took a benefit at the New Memphis Theater to the largest houses ever known here. Extra trains ran on all the roads, but one from Little Rock ran into a ditch near Forest, where the excursionists spent the evening. At the theater Miss Thompson was presented with a magnificent writing desk, and afterwards serenaded at her hotel by her admirers, who were entertained by her agent.

Advices from Buenos Ayres, April 12th, are received. The ravages of the yellow fever were dreadful. The deaths from the disease have increased to 700 per day.

The Des Moines Register withdrew yesterday from the American Press Association, and was readmitted to the Northwestern Press Association. This takes away the only really strong support the Association had in the Northwest.

Thirty-three indictments for counterfeiting against various parties have been found in the United States Court of the Pittsburg, Penn., district—eighteen against Allic, alias Bob. The maximum imprisonment for his offenses is two hundred and forty years, and the minimum ninety.

The officers and men drowned in the Niagara river Thursday all belonged to the United States army, and were stationed at Fort Niagara on the American side. The correct names of the officers lost are George Ashbury, Illinois, and James Campbell Morrison, Jr., of Ohio, both lieutenants in the First regiment of artillery.

MONETARY AND COMMERCIAL.

OFFICE OF THE COURIER-JOURNAL,
FRIDAY EVENING, May 5.

Business in nearly all branches is dull, and in financial circles there is very little activity. The banks report money easy and no gilt-edge paper is refused, but it is only after a thorough-ly satisfactory examination that it can be graded in this class. The rates are 9 to 12 per cent.

EXCHANGE—New York exchange is still in active demand, with a meager supply, which is totally inadequate to the wants of the market. We quote buying at 1-10 prem. and selling at ⅛.

LOCAL STOCKS AND BONDS—Are firm, but there is not an extensive trade noticeable at present. A little more life is displayed in Nashville railroad stock, but the sales are very small. Among the bank stocks inquired for are Merchants' Bank, Commercial Bank and Western Financial Corporation Bank stock, and we find on the market Bank of Louisville and Falls City Bank stocks.

Money Matters Elsewhere.

The New York World of the 3d says: To-day, for the first time, the whole Government list for six per cent. gold interest bonds is fairly at par with gold, ranging from 100 to 104 in gold, the last being the 1881s. The currency sixes are selling at 115⅜ to 115¾ besides the accrued interest, so that their present market price is 104⅜ in gold. Two years ago, in April and May, 1869, the World notified its readers that the opening of the great Pacific railroad companies and the opening of a through traffic from New York to San Francisco, which took place on May 10, 1869, would produce a revolution in commerce and finance which would so enrich the floating capital of the United States that five-twenty bonds would be selling at par in gold within two years. All that time, April and May, 1869, Government five-twenty bonds were selling at 85 in gold, ten-forties 79 gold, currency sixes 78 gold, and Central Pacifics 73 gold. These were the prices on May 3, 1869. Since that date the five-twenty bonds have advanced 15 per cent. in gold, the ten-forties about 18 per cent. gold, the currency sixes 25⅜ per cent. gold, and the Central Pacifics 17 per cent. gold. The accumulation of surplus capital seeking investment in first-class securities is progressing so rapidly in this country that the advance of Government bonds during the last two years is the legitimate result thereof. Mr. Boutwell's funding policy, by threatening to redeem the five-twenty bonds at par in gold, is driving investors out of government into first-class railway bonds, where government has no right to step in and say that their maximum of advance in price shall be fixed at par in gold, under the threat of redemption at that quotation. Investment capital is therefore moving from government bonds into first-class railway bonds, driven thereto by Secretary Boutwell's funding scheme.

The Herald remarks of Southern securities:

The Southern State bonds were generally higher and strong on light dealings. The principal changes were in the Tennessees and Missouris. The closing street prices of the leading issues were as follows: Tennessee, ex coupon, 67⅜@67¾; do, new, 67⅜@67¾; Virginia, ex coupon, 68@69; do, new, 71@73; do, registered stock, old, 58@56½; Georgia sixes, 81@84; do sevens 89@91; North Carolina, ex coupon, 47½@48; do new, 25@26; do special tax, 18⅜@19¼; Missouri sixes, 94@94⅜; do Hannibal and St. Joseph, 92@92⅜; Louisiana sixes, 67@69; do levee sixes, 70@74; do eights, 85@87; Alabama fives, 70@74; do eights, 103@103; do railroad eights, 94@96; South Carolina sixes, 71@80; do new, January and July, 60⅜@51; do April and October, 58@60; Arkansas sixes, 55@60; do sevens, 60@60.

The Tribune speaks as follows:

The demand for money is chiefly restricted to speculative borrowers, and it is insufficient to give employment to all the surplus offering for temporary use. The market is generally considered as presenting comparatively little inducement to responsible parties to engage in large ventures in any description of merchandise, and the diminished business of the Stock Exchange has a corresponding influence upon the inquiry for funds from this source; consequently lenders find increased difficulty in placing loans subject to call at 4 per cent. on Government securities, and at 5@6 per cent. on approved stock collaterals. First-class commercial paper continues to be in good request from dealers at 6@7 per cent. per annum discount.

The Cincinnati Enquirer of this morning has the following: There was but little activity in financial circles, and business generally was quiet. Local checking was not heavy, and deposits were comparatively light. No new feature was developed in the discount market. Currency balances are still accumulating and a considerable surplus was in some cases reported. The demand for loans was only moderate, and all good paper offered was readily absorbed by the bank, and we have to report an easy market. There is comparatively little paper afloat in the open market, and it is in demand. Rates of interest are unchanged and steady. In bank eight per cent. is the current figure, with some transactions at less. The ruling rates in the open market are 8@9 per cent. for unexceptionable names and good mercantile bills. Call loans are rated 6@7 per cent. The maturings to-day were not large, notwithstanding the fact that it was the 4th of the month, and obligations were promptly met, only some collection paper going over.

Trade.

The state of the market to-day is, on the whole, about the same as yesterday, the amount of trade being but moderate. Sugar is the only item which can be said to be advancing, and dealers to-day report an addition of ⅛c on hards; the stock of common New Orleans in the market appears to be nearly exhausted, or so largely reduced that prices for the lower grades have been up ⅛c over the rates at which sales were made yesterday. There is nothing in the market that can be sold at less than 9⅜c, and stocks are light—with small receipts. Coffees and teas remain unchanged with good stocks and moderate demand.

Country produce is decidedly quiet, the movement in green apples, potatoes, new and old, being very moderate—not sufficient, however, to change quotations. The flour market is firm at quotations, but not higher; sales confined to actual consumption. Grain is in request at quotations, all the receipts being of purchases previously made in the country markets by city dealers, no grain having been received here of late for a market. A larger supply of the cereals would be taken up on arrival for actual consumption, especially in wheat, of which the market is depleted. Provisions remain weak, with very little life, but prices are not changed. The trade in leaf tobacco is still fair; not quite such large sales to-day as yesterday, but prices are good. By the way, our correspondent at Clarksville, Tennessee, is informed that we cannot obtain the information he desires.

Louisville Live Stock Market.

REPORTED BY SOUTHERN STOCK-YARD COMPANY.
FRIDAY, May 5, 1871.

CATTLE—The market remains firm and active on this class of stock and all sell about as fast as they arrive at fair prices. In getting up our stock report we find but few remaining in pens unsold. Those that come for Sunday and Monday's market will have but few to contend against. Thin and common cows and rough oxen sell at from 3 to 4c; fair to good butcher stuff sell at from 4½ to 5¾c, and for the best smooth steers and heifers, well-fatted, weighing from 900 to 1,400 pounds, sell at from 5¾ to 6¼c; extra would sell at 6½c.

HOGS—The receipts of hogs have been heavier than for some weeks previous, and prices have declined from 25 to 50c per 100 pounds. Since last reports, at the close of the week, the prices range at from 4½ to 5c for light and for heavy well-fatted; 250 to 300 pounds average, 5¼ to 5½c. Prospects bad.

SHEEP—There are but few sheep arriving at present. Markets remain about as last reported. Thin mixed lots per head, wool off, sell at from $1 to $2, and by the pound for nice butcher sheep 3½ to 4½c; and for heavy, well-fatted sheep, wool on, 5 to 5½c. Lambs sell readily at from $2 to $4 per head; when very extra, $4 50.

HORSES AND MULES—There is but little doing in this branch of trade at present, shipments over the Louisville and Nashville railroad for the past week only amounting to about nine cars.

TOTAL RECEIPTS FOR THE WEEK.

Cattle	289
Sheep	276
Hogs	867
Horses and mules	43

BOURBON HOUSE STOCK YARD—VISSMAN, DOWNING & CO., PROPRIETORS.

CATTLE—Receipts have been light for this class of live stock during the past week, and the market has been active and strong for most all grades. They were all sold on arrival. There are none left over unsold. The markets East for choice and good beeves continues to be overstocked, so that prices remain depressed so much that shippers at this point are entirely ruled out of the market. The truth is that this is now the best market for choice butchers' stuff, better than any market East or West. We quote, for best smooth, fat steers, weighing from 900 to 1,300, $6 25 to $6 60; second quality, such as fat, smooth cows, heifers and steers, $5 75 to $6; medium, $5 to $5 50, and tailings at $3 50 to $4 50 per 100 pounds gross. Milch cows sell as to quality from $30 to $65.

SHEEP—The market remains quiet at from $4 00 to $5 for heavy, and mixed lots sell at $2 50 to $3 50 per head.

PROFESSIONAL.

DR. JEROME PANCOST,
77 Fourth Street.

Speedy and Radical Cures
GUARANTEED.
OF
NASAL CATARRH in All its STAGES,
THROAT DISEASES,
Asthma, Bronchitis,
CONSUMPTION,
AND
All other Chronic Complaints
OF WHATEVER NATURE.

DR. JEROME PANCOST, late Proprietor of the St. Louis Throat and Lung Institute, and for the past year located at 65 Adams street, Memphis, Tenn., has arrived personally and opened a permanent office in this city, No. 77 Fourth street, for the special accommodation of his numerous patients in this city and vicinity, and all others who may require his professional services. From years of experience in this difficult department of practice, I am prepared to guarantee speedy and radical cures, not only of CATARRH, THROAT DISEASES, ASTHMA, and BRONCHITIS, but even of CONSUMPTION itself in its earlier stages—without the use of those nauseating and poisonous remedies usually administered by the great mass of the profession—without the use of caustics, burning, or blistering—without the necessity of exile from home or any inconvenience whatever as to diet or occupation, as the treatment can be successfully conducted under my instructions wherever the patient may be.

It has been so repeatedly demonstrated during the past twelve years that the Pancost practice does really effect speedy and permanent cures in even the worst cases of those prevalent and dangerous class of maladies, that thousands of our most reliable and prominent citizens throughout the entire South have indorsed the claims of the author, that it is the only true mode of treating successfully such complaints. We have, in this new system of medication, a means of arresting effectually that loathsome disease, nasal catarrh, preventing its advance to the lungs, and eradicating it completely. We have a speedy and reliable cure for inflammations and other diseases of the throat—those certain harbingers of consumption if left to themselves or improperly treated. By this new system of practice, which I have introduced to popular attention, bronchitis itself, so closely allied in symptoms and results to consumption, becomes as manageable and curable as any disease the physician is called upon to treat, and that bane of our climate, in which all these inflammatory affections sooner or later terminate, may, in most cases, when properly treated in season, be arrested, controlled and cured. Thousands who have tried in vain every known remedy for restoration of the voice, have, in a few weeks' treatment, been as much astonished as delighted to regain it perfectly. Those who have suffered for years with enlarged tonsils and inflammation and ulceration of the throat, hoarseness, difficulty of breathing, cough and irritation of the air passages of the lungs, have never failed in a single instance to attain a perfectly healthy condition of those organs after proper trial of this practice.

These are strong claims, and, if necessary, I am prepared at any moment to prove, by as good evidence as was ever advanced, that not only nasal catarrh is as curable as any other disease, but asthma, bronchitis, and consumption, in its earlier stages, when once fully understood and the proper remedies administered and applied in the proper manner.

☞Call personally if possible to do so for examination. The treatment can then be successfully conducted at home under my instructions, but persons who cannot do so may write for list of questions, which will be promptly forwarded on application.

☞Consultation free and charges always reasonable and within the reach of all.

He was found in a dying condition, lying on one of the side tracks at the Western and Atlantic railroad depot, bleeding profusely from an incision in the throat. The surgeon who dressed the wounds thinks he will recover. The conduct of Buchanan for a day or two previous showed that he was insane.

Last Wednesday, at Memphis, says the Sun, a suit was brought before 'Squire Rose by ex-'Squire Mynott to recover of Col. W. R. Hunt, Col. Pinson and Gen. Forrest fifteen dollars, being the amount due for services of Mynott as deputy sheriff, and also of two clerks, for holding the election to determine whether Shelby county would subscribe $500,000 to the Selma road. The plaintiff, Mynott, was non-suited because he sought to recover of W. R. Hunt as an individual and not as an officer of the Selma railroad.

The Savannah Daily Advertiser says that there is a general complaint among colored persons residing on the line of the Skidaway and Seaboard railroad against a party of thieving negroes who have made several raids on their premises. A few days since a small colored boy, returning from Skidaway with the money received from the sale of his products, was seized, carried into the woods, robbed and his life threatened. A number of colored men succeeded in capturing one of the thieving party, and recovering the money after soundly thrashing the thief.

Zera Poe and David Weaver, two old citizens of Franklin county, Tennessee, had an altercation on the farm of the latter, last Wednesday, about a dog belonging to Mr. Weaver, which the former alleged was a sheep-killing dog. During the dispute Poe knocked Weaver down with a gun. Weaver went to his house for a rifle, and when he returned and was within six feet of Poe, he was shot at by Poe, who missed him. Weaver then raising his rifle, sent a ball through Poe's lungs. Poe soon after died. Weaver will be tried at the next term of the Circuit Court.

Mr. Zack T. Wilkerson, a respectable young man of Giles county, Tennessee, returned to his home at Richland station last Monday, after having spent the greater part of the day at Pulaski. When he arrived home he found two young negroes quarreling. Mr. Wilkinson interfered, and ordered them to behave themselves, when Jordan Petty, one of the negroes, picked up a rock and threw it at Mr. Wilkinson, striking him with great force on the left temple. Mr. Wilkinson reeled and fell, while the negro escaped. On Monday night the injured man sank into a stupor, in which condition he remained until Tuesday morning, when he died.

Although the canvass will not fairly begin for a month yet, we place the list of nominees made by the Democratic State Convention at the head of our columns. We shall spare our readers and ourselves the infliction of a stereotyped puff of the chosen ones each in detail. They are very well known, are good citizens and good Democrats, deserving well of their party and their country. The platform on which they stand is certainly a sound one, and, as there is no doubt about the result, we need get into no rhetorical passion at this early day. Our correspondent reported the proceedings at Frankfort in full, and the public is advised on that point. It was a lively and representative gathering fresh from the fields, and furnishes, through its resolutions, a hopeful sign of the times. In the face of those resolutions no assailant of Kentucky can make any headway without a species of stultification and falsehood which will do no harm.

We insist that the defeat of the Hon. W. McKee Fox for Attorney General shall not be set down to Louisville. Mr. Fox is not only highly esteemed in Louisville, but has well-known and influential connections here. He received a large share of the suffrage of Louisville. His action on the Cincinnati bill was eminently creditable to him, and, so far from being an element of weakness with the citizens of Louisville, was really an element of strength. He was expected to vote for the bill; but he was not expected to take the self-sacrificing and manly stand which he did take in his own region of country against the measure of Congressional intermeddling which followed its rejection in Kentucky. Mr. Fox will doubtless be returned to the Senate, so that, in spite of his defeat for Attorney General, the State will not be deprived of his services, which have always been laborious and valuable.

LOUISVILLE CHANCERY COURT.

HON. T. B. COCHRAN, CHANCELLOR.

ORDERS AND JUDGMENTS IN SUBMITTED CAUSES RETURNED INTO COURT TO-DAY.

A. Zinone et al. vs. Pat. Cannon; petition of Douglass dismissed.

W. Eckerle vs. E McLaughlin et al.; attachment sustained and sale ordered.

E. P. Neale vs. John H. Page et al; decree perpetually enjoining the judgment of the Common Pleas Court.

E. H. Whiteside et al. vs. city of Louisville et al.; judgment for plaintiff against Patrick Doyle, and lien enforced.

E. H. Whiteside et al. vs. N. Plummer et al.; sec. 28 of the act of March 9, 1867, 347, Elliott's Laws, authorizes an ordinance and contract for sidewalks to be improved to the extent and in the manner designated by the City Engineer.

Thornhill & Richardson vs. J. C. Ford; certain exceptions to depositions sustained and others overruled.

Mary A. Furguson, &c., vs. P. C. De Seque et al.; decree entered explaining the rights of the parties, and referring the cause to the commissioner; commissioners appointed to allot dower in unsold real estate.

James Keeby vs. Globe Insurance Company; by the terms of the policy herein the loss was payable ninety days after notice and proof of loss. There does not appear to have been any notice till suit was brought. The claim ought not, therefore, to bear interest till that time, and plaintiff for the same reason cannot have his costs. Case ordered to be heard with Overton vs. Globe Insurance Company, and plaintiff allowed $822 75 with interest from January 18, 1871, to be paid by receiver as other debts of its class.

Patrick Broderick vs. Dennis Riordan et al.; judgment for plaintiff and order of attachment sustained.

Schuler & Hutti vs. Joseph Wobl; decree of foreclosure herein; judgment against the person and sale of property ordered on four months' credit.

Sallie H. Woolley vs. Wm. Preston. In this case the court rendered the following opinion: "The land in Bath county, the subject of this controversy, was in adverse possession at the time of the death of the late Robert Wickliffe, but the legal title was in him. There is no doubt but that such estate as he had could pass by his will. After specifically devising a portion of his lands in that county to his other daughters, the testator devised all the rest of his lands in Bath and Morgan counties to Sallie H. Woolley. It seems to the court that the testator's intention to give the land in controversy could not have been more clearly expressed if he had named the particular land in his will. The 11th section of the second codicil did not authorize the executors to compromise by selling out to adverse claimants, and that section could not possibly affect Mrs. Woolley's right. The general authority to compromise and settle all suits and controversies, in which the estate might be involved, was not inconsistent with her rights as devisee. Such power merely made them her trustees in respect to any property devised to her, which might be involved in a suit in controversy. It seems a clear proposition that Mrs. Woolley is entitled to the money paid by Wells on the compromise. Demurrer to answer sustained, and judgment to plaintiff as prayed."

Sarah Jane Dover vs. Joseph Dover; divorce suit. Decree for plaintiff of divorce a vinculo matrimonii and custody of child.

Joseph Helm vs. W. H. Forwood; petition dismissed at plaintiff's costs.

Marshall vs. Marshall. On a petition of S. S. Bush for new trial; new trial granted, and the cause referred to the Commissioner to report what further credits, if any, Bush is entitled to.

J. E. Roach et al. vs. Geo. B. Roach et al. Report of partition confirmed, and Commissioner ordered to make deed of partition.

Henry J. Mead vs. Hall's Safe and Lock Company; demurrer to petition overruled.

Lockwood Bros. & Co. vs. B. F. Johnson; response of N. Q. Pope, purchaser, adjudged insufficient and rule made absolute. Judgment against Pope for costs.

Joseph Short vs. W. H. Taylor et al.; Commissioner's report of March 17, 1871, confirmed.

J. Schaefer's administrator vs. his heirs et al.; Commissioner's report on claims confirmed, except the claim of John G. Schaefer by note for $1,300 is disallowed. Non est factum was plead to it, and the execution of it was not proved. All other exceptions to the report overruled.

E. H. Fowler et al. vs. E. H. Fowler. It appears from the answer of J. S. Butler, guardian ad litem, that the infant Charles Brown is a resident of Louisville. Process has not been served on him, and there could be no guardian legally appointed before service of process. The answer is not the answer of the infant, but of the guardian.

It is very desirable that the Chancellor should not be compelled to take cases out so often before they are ready. Will Attorneys know their cases are ready before submission?

Crofoot vs. Andrew Reef et al. The general apportionment ordinance of the city under the old charter, of June 9, 1868, sustained by the Chancellor in long and able opinion. Cross petition of defendants against the city dismissed.

James A. Duncan vs. D. B. Hutchings; it seems to the Court that the interest of Hutchings and Weaver as witnesses is balanced. Therefore the exceptions to their depositions are overruled.

J. R. Buchanan et al vs. John Rowan's executors; the motion to set aside the order of February 17, 1871, and strike the amended answer and cross petition of Rebecca Rowan from the files, sustained.

JEFFERSON COURT OF COMMON PLEAS.

Taxation—Ordinance Taxing Brewers Void—Charter to be Closely Pursued and Strictly Construed.

Kuiper & Co.
vs.
City of Louisville. } From Louisville City Court.

LINDSAY, JUDGE.

Appellants were proceeded against for a violation of an ordinance of the General Council of Louisville defining who shall be deemed brewers and requiring them to obtain license, for which they were to pay one-tenth of one per cent. on the amount manufactured, provided that each brewer shall pay at least $15 per annum. Section 96 of the city charter provides that the General Council shall require of each brewer or distiller a license, for which he shall pay not less than $50 nor more than $500, and authorizes the Council to grade, class and fix the rate of license within that minimum and maximum. The court below adjudged that the ordinance was authorized by the charter.

Held—The Council did not follow the authority delegated. The right to require from the larger manufacturers an annual sum in the shape of license exceeding $50, is made to depend upon the fact that all other persons in the same business in the city are required to pay at least $50 annually. The plan adopted in the ordinance may be just, but it expressly recognizes the fact that it is to be so applied as in some cases to reduce the charge as low as $15. Inasmuch as the Legislature deemed it proper to make the right of the city to impose this charge upon any class of brewers depend on the fact that all should be compelled to pay at least $50, the disregard of this material limitation on the power of the city takes away from its ordinance its legal vitality and renders it void. Authority conferred upon municipal corporations is to be strictly construed, and must be closely pursued. (Sedgewick on State and Constitutional Law, 466.) The 96th section of the charter is not in violation of the State Constitution. (4 Bush, 406.)

Appeals to the Court of Appeals—Interlocutory and Final Orders.

McCall
vs.
Hitchcock. } From Lewis.

HARDIN, JUDGE.

At the May term, 1867, of the Lewis Circuit Court, McCall recovered a judgment against Hitchcock in an ordinary action for $22,500, and the term expiring without a motion for a new trial, Hitchcock brought this suit to vacate the judgment under sections 579-581 of the Civil Code, and it resulted in a judgment setting aside that judgment and directing the former suit to be reinstated on the docket. McCall has appealed from the last judgment, and Hitchcock has moved to dismiss that appeal on the ground that the judgment was not final.

Held—The latter judgment was not a mere interlocutory order subject to be set aside by the same court at a subsequent term, nor simply a ministerial act; nor could it be revised as an ordinary decision of a motion for a new trial may be, on an appeal from the judgment in the original action; but it is the final adjudication of important rights litigated in a separate and independent suit, and is properly before this court by appeal.

The Board then decided against his vote, but, after a great amount of expostulation, the vote was allowed.

CITY ITEMS.

An Investment that Will Pay.

Capitalists are not only invited to the sale of Main-street property this evening, but are entreated not to permit the opportunity to pass unembraced to make an investment, to which every indication of the times points to as certain and safe. S. S. Meddis.

☞ Auction sale this day, at 4 o'clock, on the premises, of 52½ by 210 feet to Green street, on the south side of Jefferson street, between Sixth and Seventh. W. A. Kliesendorff, agent. Buckel & Shaffer, auctioneers.

☞ Mr. Will. S. Hays has something to say on our fourth page this morning. It is interesting to everybody. Read.

The Broadway and Twenty-first Lots to be sold this afternoon at 3½ o'clock are very desirable. Morris, Southwick, & Co., Auctioneers.

☞ A single trial will convince the most skeptical of the efficacy of Helmbold's Grape Pills in sick or nervous headache, jaundice, indigestion, constipation, dyspepsia, biliousness, liver complaints, general debility, &c. No nausea, no griping pains, but mild, pleasant and safe in operation. Children take them with impunity. They are the best and most reliable. Helmbold's Extract Sarsaparilla creates new, fresh and healthy blood, beautifies the complexion and imparts a youthful appearance, dispelling pimples, blotches, moth-patches and all eruptions of the skin.

Ice.

All persons wishing ice can secure their supply for the season at three quarters of a cent per pound by leaving their orders with John P. Cromie. Office on Fifth street, between Market and Jefferson.

☞ Helmbold's Extract Sarsaparilla is the great blood purifier; thoroughly cleanses and renovates the entire system and readily enters into the circulation of the blood—after purging with Helmbold's Grape Pills the foul humors that have accumulated in the system for years. Broadway and Twenty-first Street Lots at Auction

this afternoon at 3½ o'clock. Morris, Southwick & Co.

☞ If you desire a mild, pleasant, safe and agreeable cathartic, which will cause neither nausea nor griping pains, use nature's remedy, Helmbold's Grape Pills. They are purely vegetable, their component parts being Catawba "Grape Juice and Fluid Extract Rhubarb." Should you desire a brilliant complexion, youthful appearance, new life, new fresh bloom and renewed vigor use Helmbold's Extract Sarsaparilla.

☞ This is the season of the year when the system should be thoroughly purged of the humors which create disease. There is no purgative or cathartic so mild and efficacious as Helmbold's Grape Pills, causing neither nausea nor griping pains—as is the case with the ordinary cheap patent pills of the day—most of which are composed of calomel or mercury, and carelessly prepared by inexperienced persons. After thoroughly purging the system use Helmbold's Extract Sarsaparilla, the great Blood Purifier, and they will insure new life, new blood and renewed vigor. Try them.

The Great West-end Sale

of Broadway and Twenty-first street lots takes place this afternoon at 3½ o'clock. Morris, Southwick & Co.

☞ All powders and outward applications close up the pores of the skin, rendering it harsh, coarse and flabby, and in a short time destroy the complexion. If you would have a fresh, healthy and youthful appearance, purge the system thoroughly: use Helmbold's Grape Pills and Helmbold's Sarsaparilla, which beautifies the complexion. Beware of those cheap patent pills, carelessly prepared by inexperienced persons—vended in wooden boxes—most of which contain either calomel, mercury or other deleterious drugs.

Wintersmith's Iodized Sarsaparilla and Stillingia, the Great Blood Purifier.

Contains three grains Iodide Potash to the dose. A certain cure for all diseases arising from an impure state of the blood. It is not a secret nostrum, but is prescribed and recommended by all intelligent physicians.

Price, $1 00 per bottle; six for $5 00.

Stillingia, or Queen's Root—Commonly Called Queen's Delight—Extract from U. S. Dispensatory—"It is an indigenous perennial plant; grows in the pine barrens from Virginia to Florida, flowering in May and June. From the reports in its favor there is no reason to doubt the efficacy of this medicine in scrofula, secondary syphilis, cutaneous diseases, chronic hepatic affections, and other complaints ordinarily benefited by alterative medicines. Stillingia is advantageously combined with sarsaparilla and other alteratives." At this season of the year the system naturally undergoes a change, and a good blood purifier will be found an assistant of the greatest value. Wintersmith's Iodized Sarsaparilla and Stillingia is unequaled as an alterative and blood purifier. It has all the virtues of the best Honduras Sarsaparilla and of Stillingia, with three grains of Iodide of Potash to the dose. Every bottle contains fifty-six doses, making it not only the best but the cheapest alterative in the market. It is prescribed and recommended by our leading physicians.

Home Testimony—Read the certificate of R. A. Gresham, of the Louisville Transfer Company:

"I have taken nearly all of the alterative medicines in the market; I have found nothing to do me half so much good as Wintersmith's Iodized Sarsaparilla and Stillingia. R. A. Gresham, Louisville Transfer Company."

☞ If you would have new life, new blood and renewed vigor, use Helmbold's Grape Pills. Purify the blood and beautify the complexion by the use of Helmbold's Extract Sarsaparilla. They are no cheap patent medicines, but thoroughly pharmaceutical, and are not equaled by any English or French preparation.

SYSTEM RENOVATOR.

[From the Cincinnati Commercial, April 8, 1871.]

Dr. James C. Kerr's Great System Renovator—Price Reduced to $1 per Bottle—The Great and Unparalleled Success of this Medicine.

We have known for a long time that it was the earnest desire of Dr. James C. Kerr to reduce the price of the Great System Renovator from $1 50 to $1 00 per bottle, and that as soon as he could do so, without altering the size of the bottle or deteriorating the quality of the ingredients, he had resolved to place the price at the latter figure. We are now able to announce that this desirable result has been attained, and that the retail price of this valuable medicine will hereafter be $1 for a single bottle—six bottles for $5—with wholesale prices reduced in proportion. The reasons that have enabled Dr. Kerr to do this without pecuniary loss are so well and forcibly given by himself, in his circular, that we quote the paragraph:

"SPECIAL NOTICE.—It has long been the desire of Dr. James C. Kerr to place the price of the Great System Renovator within the reach of everybody, that the poor, as well as those in comfortable circumstances, should receive the benefit of this invaluable medicine. This, the recent act of Congress, reducing the import tax on many of the rare and costly ingredients used in the preparation of the Great System Renovator, has enabled him to do, and he now has the gratification of offering it to the public at one dollar per bottle."

An additional reason may, perhaps, be found in the fact that the sales of this medicine are now so enormously large that a net profit of a few cents on each bottle sold will, in the aggregate, amount to a large yearly income—sufficient in a few years to constitute a colossal fortune—although, for that matter, Dr. Kerr is already the possessor of a handsome competence.

The best evidence of the merits of a proprietary medicine is its popularity at home among people of intelligence. Judged by this standard, Dr. Kerr's Renovator is not equaled by any medicine in the world. Nearly a hundred of our leading citizens, many of whom are men of national reputation, and some of them ex-members of Congress and Judges of the higher Courts, have not hesitated to give their published indorsement of the medicine. And not only here, but leading members of our State Senate and House of Representatives at Columbus, as well as noted divines and prominent business men in other cities, have done the same thing, in language that forcibly and unmistakably expresses their high opinion of the Renovator, based, in the majority of instances, upon the fact that it has cured them of some one of the severe diseases that afflict mankind. The Renovator is the only [illegible] range of preparations that has ever received such indorsements from similar sources, and it is a testimonial that nothing on earth but the most positive and unmistakable merit could procure. The success that the Renovator meets with on every hand is deserved, and, under the stimulus of the reduced price, which everybody can afford to pay, we expect his sales to reach a larger figure than has been obtained by any medicine in the world.

ROSADALIS.

HUNTSVILLE, ALA., March 29, 1869.

GENTLEMEN—For two years I was a sufferer with Inflammatory Rheumatism. During that time I took various remedies that professed to cure the disease, but with no success. About six months ago "Rosadalis" was recommended to me by my physician. I took it as prescribed, and the result is very satisfactory. Besides my own, I know many other cases in which the Rosadalis has proved successful. Yours truly, J. J. PITMAN, Postmaster at Huntsville, Ala.

[Extract from letter of 20th March, from A. F. Wheeler, Esq., Druggist, Lima, Ohio.]

"In conclusion I can say Rosadalis is the best blood purifier we have, without doubt. ap30 deod2w

UNHAPPY MARRIAGES.

WHY are there so many unhappy marriages? It is because many enter into that state from unworthy motives, whilst others have their systems filled with the virus of scrofula or syphilis. This hidden enemy does not always lay quiet, as it breaks out when least wanted. To those who contemplate marriage, with their systems in that condition, we say, STOP. First cleanse yourselves of those impurities before you bring misery on your offspring; and, as we offer advice, we also offer, free of charge, until a cure is effected, the Samaritan's Root and Herb Juices, so that a healthy family and happy marriage will take the place of deception and misery. Send reference that you will pay when cured to DESMOND & CO., 915 Race Street, Philadelphia, Pa.

SATURDAY MORNING, MAY 6, 1871.

LINCOLN COUNTY.

The Circuit Court and its Work—Crab Orchard Springs and the Burnt Buildings, Etc., Etc.

[Correspondence of the Courier-Journal.]

STANFORD, KY., April 29, 1871.

To-day our Circuit Court closed its labors of two weeks, and, although there was not a great amount of new business, yet the term was by no means dull. The weather during the sitting of the court was fine, and a goodly number of our citizens was in attendance every day.

The grand jury was very strict in the discharge of their duty. They returned about sixty indictments against different individuals for offences from the highest to the lowest known to our laws. Thos. Dinwiddie was indicted for murder, Thos. Scott (colored), L. H. Fitzhugh, John A. Fitzhugh and James Fitzhugh for conspiring together and burning the buildings of the Crab Orchard Springs in February last; John, James and O. H. Fitzhugh, for larceny of the goods of the Crab Orchard Springs, and for several other smaller offences; Henry Smith, colored, and Warfield Carpenter, colored, for grand larceny; Abraham Mounce and W. A. McHarge, for malicious stabbing, and numerous others for smaller offences. The grand juries of our county are growing more and more watchful of the peace and dignity of this Commonwealth, and breakers of the laws will have to seek other localities for the commission of their offences, if they wish to escape the punishments denounced against them.

I am glad to be able to state that, notwithstanding the damage done the Crab Orchard Springs, they have passed into other hands, and the enterprising new proprietor and purchaser, Isaac Shelby, Jr., of Lincoln county, has gone vigorously to work to rebuild the burnt district, and fit this invaluable watering place for the health and pleasure of visitors during the coming season. MADNESS AND SUICIDE.

A Husband Cuts His Throat Rather than See His Wife Taken to a Lunatic Asylum.

[From the Richmond (Ky.) Register.]

On Friday morning last Mrs. Hannah Terrill, wife of James Terrill, was tried before the County Court as a lunatic. She was adjudged insane and ordered to be sent to the asylum at Lexington. She had become so wild and unmanageable that her friends and family thought it would be dangerous to herself and to others to allow her longer to go free. For some weeks past her mind has been wrong, and her husband had at last reluctantly consented for her to go to the asylum, as her madness seemed to increase, and it became necessary to restrain her from violent action. On Thursday morning, when the wagon had been ordered to come for her, and while she was lying bound upon the bed, ready to be taken from his home and his children and confined in a lonesome cell of the mad-house, Terrill rushed into the room, a long knife glittering in his hand, and, exclaiming that he couldn't see her go, that it was more than heart of mortal could bear, he plunged the knife into his own neck and cut his throat from ear to ear. He died almost instantly and without speaking another word. Falling bleeding and dying at her bedside, for a moment a gleam of intelligence was seen to shoot across her sad, wild face, and the poor unfortunate creature seemed to comprehend the dreadful tragedy which had just been enacted. It was but momentary, however, for from that hour until she was lodged in the asylum her woful cries and shoutings never ceased.

When brought to town it was deemed best not to take her from the wagon before the jury, as two strong men were required to hold her quiet, and her ravings, first a prayer to God to bless her and to save her, and then terrible oaths and imprecations upon supposed enemies, rendered unnecessary any personal examination by the jury.

It was a distressing sight—that wild, mournful, haggard face, those large gray eyes that seemed to start from their sockets as the mad captive struggled to be freed from the strong, yet kind hands that bound her, that long, flowing hair, loosed from the comb, that terrible maniac stare which told that reason had left its throne, those piercing screams and prayers and oaths that rent the air, and then the sad thought that poor Jim Terrill lay cold and dead because his heart could not see the companion of his younger years, the wife of his bosom and the mother of his children, torn away from his desolate home forever—all these made an impression upon the hearts and minds of those who witnessed the deplorable spectacle which in this world will never be forgotten.

A Cincinnati Paper Raves.

[From the Cincinnati Commercial.]

The direction of Miss Nilsson's business affairs in this country is in the hands of an Englishman who has been connected with English amusements for the better part of half a century, and has probably forgotten more than most of the agents of the day ever knew. But, like the rest of his countrymen, he doesn't understand America. When he permitted his brilliant ward to be approached by Fisk with his vulgar tribute of monster bouquets, decorated proscenium boxes and palatial railway cars, he made a blunder that high-minded people regret. And now that Miss Nilsson is singing in the South she has been induced to add "The Conquered Banner" to her repertoire. "When," says the Savannah Republican of last Thursday, "in response to a request sent her by a number of leading citizens late in the afternoon, she sang, for the first time in her life, 'The Conquered Banner,' there was not a person in the audience, cultivated or uncultivated, whose heart did not thrill to the wail with which she told the story of the past and echoed the cry of a 'people whose hopes are dead.'" "The Conquered Banner" is about as rubbishy a lyric as ever touched the watery sensibilities of morbid individuals, but it is also a political song, and therefore should be let alone by unnaturalized foreigners whose love for American banners of any sort is not apt to be very powerful. The song is a spring to catch Southern cash, a cheap bit of humbug, a gag. Mr. Jarrett himself evidently needs an adviser.

Latest About Laura Fair.

[From the San Francisco Bulletin.]

While there is general expression of satisfaction at the result of the trial, there is also a feeling expressed in nearly all circles, opposed to the infliction of the extreme penalty of the law, and in favor of a commutation to imprisonment. Men say the verdict was demanded, and, as rendered, it vindicated law and public morals. That, they say, was the purpose to be attained, and the conviction secured it.

Should the motion for a new trial be overruled, judgment must follow, and from that an appeal will be taken to the Supreme Court of the State, which must either affirm or overrule the judgment of the Fifteenth District Court.

Wednesday the jail keeper, Mr. Kelly, refused to allow Mrs. Fair's little daughter or her mother to enter the prison with her, but yesterday Sheriff White granted a permit to both of them, and now they are with her. Mrs Fair expresses full reliance in the good faith and ability of her counsel. She has been removed from the room which she first occupied at the front of the prison to a large cell at the foot of the upper corridor. It is comfortably furnished with bed, chairs and table, but seems hardly suitable for a woman in her condition of health; still, it is probably the best in the jail. Dr. Trask visited her again yesterday, but most of the time she was alone with her daughter and mother.

The Fate of General Duval—Lecomte and Thomas Avenged.

[World Paris Letter.]

General Duval was made prisoner on Chatillon Heights, and was on his way to Versailles with the several hundred other insurgent prisoners captured at the same time, when, at the crossroads where the Sceaux, Paris, Versailles, and Bievre roads fork, the prisoners and guard met General Vinoy and staff, who were riding to Chatillon Heights. He ordered the guard to halt, and he dismounted, went to the prisoners and said: "There is among you a Monsieur Duval who calls himself General. I should like to see him." General Duval stepped from the ranks calmly and with dignity, and said, "I am he." General Vinoy added: "And there are two 'chefs de bataillon' also with you." They also stepped forward. General Vinoy said to them: "You are frightful wretches (canailles); you shot General Clement Thomas and General Lecompte, and you know your fate." Turning to the commander of the guard, he said: "Captain, detail a platoon of ten riflemen, and do you, gentlemen, go with him to yonder field." The insurgent officers quietly walked to the spot indicated, a narrow field on the road to Meudon, and lying on the northern side of a white boundary wall, on which is painted in very large letters: "Duval Garden." In front of this wall General Duval and his companions stood, threw off their coats, and placed themselves before the platoon charged with their execution. When the muskets were leveled at their breasts they shouted "Vive la Commune!" and the next instant fell corpses.

A Legislature in Rebellion.

Illinois is agitated over a curious constitutional question. The Legislature has voted not to adjourn sine die this spring, but to take a recess and meet again on the 17th of November at Chicago. There is no question of its right under the constitution to do this, but it is an act unprecedented in the history of Illinois legislation, nevertheless. The evident intention of the Legislature is to separate without taking action on the State House appropriation bill and some other bills which the Governor deems of great importance. He has intimated his intention to convene the Legislature in extra session in case of a failure to act on these bills, and it is to checkmate this move that the Legislature takes a recess. The Legislature is theoretically in session during the entire interval from now till November, and it is contended on the one hand that the Governor can no more interfere to compel the Legislature to sit for business during this recess than if the term of adjournment were but a fortnight. On the other hand it is said that the State constitution provides that the Governor shall have the power to call together the Legislature when there is an emergency, and that the wisdom of this provision has been demonstrated by repeated experience; and if a Legislature can evade the performance of its duties by taking a recess of many months, it can practically nullify the constitution. The anomaly of an extra session, in the midst of a regular session, would be a new thing in legislation, but would probably be better than to acknowledge that a Legislature could practically nullify the constitution by the artifice of voting a recess to continue within a day or two of the time when the term of its members would constitutionally expire. What Governor Palmer will do about the matter remains to be seen.

A FAST WOMAN.

One of Fashion's Queens Attempts Suicide by Swallowing Pins.

[From the New York Sun, May 1.]

The arrest of Fanny Mordaunt on Friday evening on charge of disorderly conduct, and her attempt to commit suicide while imprisoned, recalls to mind curious facts in this remarkable woman's history. Mrs. Mordaunt is about thirty-three years of age. She is a native of Washington, and resided in that city up to within a few months. Her maiden name was Roux. At the outbreak of the war she married a Mr. Cole; this union was brief, however, owing probably to Fanny's violent temper. Once released, she plunged into the vortex of fashion and gayety. Among her many admirers was Col. Stuart, of Washington. With this gentleman she moved in select circles, and theater, concert and ball found her the envied of the company. Taking advantage of her new superior station she used all her powers of person and tongue. Capricious, self-willed, passionately loving and hating, her flirtation with the Colonel suddenly ceased, and she attempted to commit suicide by taking laudanum.

Soon thereafter Major-General Joseph C. McKibbon, of the United States army, married her. Gen. McKibbon took her to Mobile, New Orleans and other Southern cities, traveling in gorgeous style. She lived with McKibbon two years, and that officer's plethoric exchequer dwindled to nothing. Fortune did not desert her, however, for they returned to Washington, and the round of pleasure was resumed. Her extravagance in dress and life at the hotels where she was so well known soon gave rise to much gossip, and another abandonment was the result, the General going to Chicago, where he now resides.

In the fall of 1870 Frank Mordaunt, the actor, then playing in Spaulding's National Theater, Washington, married her, and again she reveled in the vortex of pleasure, spending her time in riding, driving and in visiting the theater and concert hall. Mordaunt came to New York, followed by Fanny, who took up her residence in the upper part of the city. On Friday evening last she chose to uncurb her tongue to officer Washburne, of the Ninth-ward police, who refused to arrest her husband on her charge of assault. For this show of abuse and noise she was incarcerated in the Charles-street police station. During the night she attempted suicide by swallowing half a dozen pins, having previously, it is said, taken three morphine powders. Justice Cox released her.

Garrett Davis Serenaded in Virginia.

[From the Lexington (Va.) Gazette.]

Hon. Garrett Davis, at present a member of the U. S. Senate from Kentucky, has been spending a few days in our town on a visit to his son, a student of Washington and Lee University. On Monday night he was serenaded at the National Hotel by the young men of the college. After some very fine music by the Institute Band, he appeared on the balcony of the hotel and addressed the crowd assembled in a very appropriate speech of about twenty minutes' duration. He congratulated the University on its prospects and improvements, and proved his confidence in it by reference to the fact that he had chosen it as the school for the education of his own child. He glanced at the early history of the Institution and the connection of the Father of his Country with it, and the intimate association of the names of Washington and Light Horse Harry Lee in the Revolution, and the mingling of the names of Washington and Lee in its latter history, holding up these names as bright exemplars for the guidance of the young men in course of life, in the spheres of patriotism and moral integrity.

He then took a sweeping glance at the principles of government, and urged an adhesion to the doctrine of States Rights as the only safety for the liberties of people such as ours are now destined to be. He condemned in severe terms the consolidation tendencies and the maladministration of the party now in power, and clearly proved the rapid march of that party towards ruin and anarchy. He called upon the rising generation to prepare to rescue the country from the impending danger.

He closed by a beautiful and stirring tribute to Virginia, pointing to the bright example of her statesmen in the past and prophesying her devotion to the principles of liberty and good government in the future. He retired amid loud applause.

The Northern Pacific.

The following circular, giving information of the progress and condition of this great enterprise, has been received by Theodore Harris, Esq., President of the Louisville Insurance and Banking Company:

BANKING HOUSE OF JAY COOKE & CO.,
FIN. AGT'S OF THE N. P. R. R. CO.,
PHILADELPHIA, April 25, 1871.

Although work was begun less than nine months ago, trains are now running over 130 miles of finished track.

The grading is nearly completed for 266 miles (from Lake Superior, through Central Minnesota, to the border of Dakota).

The railroad bridge across the Mississippi, at Brainerd, is finished, and track-laying is rapidly progressing westward.

By August or September of this year trains will run to the crossing of the Red river of the North, where connection will be made with 1,500 miles of inland navigation—down the Red river, through Lake Winnepeg, and up the navigable Saskatchawan, which drains a most productive valley. Thus, for the first time, will steam communication be opened with the fertile provinces of British America west of Lake Superior, and the traffic which these provinces will at once contribute to the Northern Pacific railroad, added to that of the Hudson's Bay Company and the local trade through Minnesota, will, from the outset, give to this first division of our road a most profitable business.

With the opening of spring, the work of construction was begun on the Pacific coast. A large force of men is now employed grading the road, between Portland and Puget Sound, in Washington Territory.

Hereafter the work of construction will be pushed both from the west and the east, toward the center, with such rapidity as the best interests of the road may justify.

Of the recent purchase by the Northern Pacific Railroad Company of the St. Paul Pacific road (main line and branch), you are already informed. Including this purchase, the Northern Pacific railroad now has more than 420 miles of road in operation, and before the close of the present season the length of finished track will be at least 560 miles.

With the completion of our trunk line to the Red river, four months hence, the Northern Pacific railroad will come into full possession of some three million acres of farm and timber lands in Minnesota (to a large portion of which it is already entitled), worth at least ten million dollars more than the entire cost of this portion of the road.

Energy and integrity characterize the management of the enterprise in all its parts. The road is being built for the return it will legitimately yield, after completion, through the development of its traffic and its magnificent land endowment—not for any premature profit which, under a different policy, might be derived from the work of construction itself.

The sales of the company's bonds, you will be pleased to learn, are steadily increasing in all parts of the country, and, like other first-class railroad bonds, are fast coming to be recognized by investors as one of the very soundest and most desirable securities in the market.

The profitable traffic of the present completed Pacific railroad, and the high price of Central Pacific six per cent. bonds, (present quotation 101,) give the public fresh confidence in well-managed trans-continental roads, and furnish some indication of the future of Northern Pacific seven-thirties.

We are glad to be able thus to assure you of the excellent management and highly prosperous condition of the great national enterprise with which you are to some extent identified.

Very truly yours, JAY COOKE & CO.

THE RIVER is still rising, with 7 feet 2 inches in the pass down the Indian chute and 9 feet 2 inches in the canal. The reports from above indicate a further rise; at all events there will be sufficient water to admit of all the coal fleet that is now above the falls to pass either through the canal or down the falls. The weather yesterday was more like winter than spring. The mercury went down to 50° and a strong breeze blowing from the northwest. It was so cold that overcoats and fire were brought into requisition. Business is dull and freights scarce, although we have not a boat receiving for New Orleans direct. Special telegrams to the COURIER-JOURNAL report the condition of the weather and the Ohio and Mississippi rivers at various points.

The Belle Vernon, St. Paul to Pittsburg, was past due last night.

The Lawrence, from Nashville, and Champion from St. Louis, are due at this port to-night.

The Kate Putnam is loading at Pittsburg for Nashville.

The Kate Robinson leaves St. Louis to-day for Louisville and Cincinnati.

The Shannon, Captain Beatty, will leave for Cairo, Memphis, and New Orleans on Tuesday, the 9th instant.

The LeClaire No. 2 will leave the city wharf this evening at 5 o'clock for Tennessee river positively.

The Nightingale will be down this morning, and leave for Arkansas river at 12 m. positively.

The P. W. Strader, Susie Silver, C. B. Church, and Argosy and barges are loading at Cincinnati for New Orleans.

There are thirty-five towboats at Pittsburg, and nearly all of them expect to get out with tows of coal on the present rise.

Captain Gus. De Souchet has gone to Washington City to secure letters patent for his ingenious water-meter.

The Sam Roberts arrived from Pittsburg with a full tow of coal for Sam Roberts, of this city, and returned with a tow of empty barges.

The Spray will be down this morning on her way to Nashville. She has about 330 tuns awaiting her arrival on the levee.

The Abeona, of the St. Louis Express line, will be down this morning, and leave for St. Louis at 12 m.

The Leonora, Capt Garriott, will be found at the city wharf this morning, and will leave for Madison and Carrollton at 1 p. m.

The towboat John A. Wood will get off to-night with 14 coal boats and 12 barges, consigned to Horner, Wood & Co., New Orleans; Captains Dan Tloe and James Dougherty, pilots.

The Falls City, Capt. John A. Robinson, left the city wharf yesterday evening full of people and freight, in fact she had to refuse freight. She is bound for Bowling Green.

The Mollie Ebert ascended the falls yesterday evening and discharged 964 bars railroad iron for the Short-line railroad, and a considerable quantity of miscellaneous freight.

The Rover and barges arrived from Pittsburg and discharged fifty tons of Pittsburg manufactures, and then descended the falls on her way to St. Louis.

Capt. Harry Brolaski, who commanded the W. R. Arthur, when she was destroyed, has been appointed Superintendent of the St. Louis Express and Transfer Company.

The Wabash river is lower than ever before known, even by that distinguished individual, "the oldest inhabitant." In many places there is not water enough to float a good-sized catfish.

It is stated that the Wade Hampton will enter the New Orleans and Shreveport trade as an independent packet, and challenge anything in Red river to run a race with her.

Capt. Joseph Throckmorton, one of the oldest Western boatmen, was last Saturday appointed by Col. McComb river expert, and assistant in the United States upper Mississippi river improvements. The selection will give general satisfaction, and exhibits judgment and discrimination.

Captain A. F. Power, chief clerk of the steamer Robert Burns, has resigned his position, and his place will be filled by W. P. Walker, late chief clerk of the Alice Dean. Mr. S. F. Wilson, late of the Silver Moon, will go second clerk, and M. S. Peppard third.

The Lady Lee left Shreveport on Tuesday evening, the 25th of April, and made the run to St. Louis in less than seven days, besides losing eighteen hours in the fog. Her officers claim that she passed every boat they saw, and was passed by none. They also claim that she is the fastest stern-wheeler now afloat.

The Memphis Appeal of Thursday says: "The Board of Aldermen last evening reported in favor of instructing the Mayor to advertise for bids for two elevators, one below Beale street, and one above Washington. The Landing Committee also reported in favor of allowing transient boats the privilege of lying at the wharf six hours instead of three, on short wharfage, a good move, which will prove beneficial to not only consignees of Memphis, but shippers also."

A dispatch from Captain J. H. Marratta, of the steamer Leonidas, gives an account of the damage done to that boat in the storm of Tuesday night. She lost her chimneys overboard, the forward part of the cabin was blown off, pilot-house gone, texas badly damaged, sky-lights broken, lifeboat and yawl lost, bedding and furniture damaged by rain, and the spars, derricks, and rigging lost. The Captain stated that it would take three weeks to repair, and asks for instructions. The underwriters at Cincinnati telegraphed to make temporary repairs and go there for an overhauling. The Leonidas was insured in Cincinnati, as were also several other of the steamers damaged by the same storm.

Joseph Nixon, the mate of the Belle of Alton, who is charged with having fired that steamer at New Orleans, made the following voluntary statement before the Chief of Police at New Orleans a few days since: He said that Wm. Marsh, an engineer, who said that he was part owner of the boat, approached him and said: "I wish this boat was burned up; she is eating herself up, and I have some money in her, and that is the only way I can get it." Marsh asked Nixon to do the work, stating that the old man, meaning the captain, wan't it done, and so does the rest of them, meaning the rest of the owners. Nixon declined, saying that was a job he did not like, and that he had better get somebody else. Marsh replied no: that he had known Nixon many years and had full confidence in him, and that he would pay him $300 as soon a the work was done. Nixon agreed. The next day the captain had his effects moved off the boat, and the next day the books were carried ashore out of the steamboat office. Then Mr. Marsh said to Nixon: "Let her go to-night." That night, between 3 and 4 a. m., Nixon set the boat on fire abaft the ladies' cabin. The fire spread rapidly. Nixon ran to the texas to get some clothing. Then he ran and got a bucket and threw some water on the fire to make a show as if trying to put out the fire. He then went down stairs, where he met the watchman, who, he says, was awake and on duty. The next morning, at ten o'clock, the Captain visited the wreck of the boat, and said, "She is gone, is she? Where did she catch?" After making these remarks he walked off. The next day Marsh gave Nixon one hundred dollars, and told him he would give him the other two hundred very soon; but Marsh went off to St. Louis." The case is watched with much interest, as the insurance money, a sum of $34,500, and the honor of some of the most respected of the citizens of St. Louis and Alton are involved.

Improved

ROSE-WASH

cannot be surpassed as a FACE WASH, and will be found the only specific remedy in every species of CUTANEOUS AFFECTION. It speedily eradicates PIMPLES, SPOTS, SCORBUTIC DRYNESS, INDURATIONS of the CUTANEOUS MEMBRANE, etc., dispels REDNESS and INCIPIENT INFLAMMATION, HIVES, RASH, MOTH PATCHES, DRYNESS OF SCALP OR SKIN, FROST BITES, and all purposes for which SALVES or OINTMENTS are used; restores the skin to a state of purity and softness, and insures continued healthy action to the tissues of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principal claim to unbounded patronage, by possessing qualities which render it a TOILET APPENDAGE of the most superlative and congenial character, combining in an elegant formula those prominent requisites, SAFETY and EFFICACY—the invariable accompaniments of its use—as a Preservative and Refresher of the Complexion. It is an excellent Lotion for diseases of a Syphilitic Nature, and as an injection for diseases of the Urinary Organs, arising from habits of dissipation, used in connection with the EXTRACTS BUCHU, SARSAPARILLA AND CATAWBA GRAPE PILLS, in such diseases as recommended, cannot be surpassed.

General Recapitulation of Diseases and Cures.

For Kidney Affections—Use Helmbold's Extract Buchu.

For Bladder Affections—Use Helmbold's Extract Buchu.

For Gravel—Use Helmbold's Extract Buchu.

For Dropsy—Use Helmbold's Extract Buchu.

For Diseases of the Testicles—Use Helmbold's Extract Buchu.

For Female Complaints—Use Helmbold's Extract Buchu.

For Gonorrhea, first stage—Use Helmbold's Extract Buchu and inject with Helmbold's improved Rose Wash.

For Gonorrhea, second and third stages—Use Helmbold's Extract Buchu, bathe the parts with Rose Wash, and after the inflammation subsides inject with the Rose Wash.

For Gleet—Use Helmbold's Extract Buchu and inject with Improved Rose Wash.

For Strictures—Use Helmbold's Extract Buchu and the Bougie. For dose, see bottle.

For Gonorrhea and Gleets—Take one teaspoonful Extract Buchu three times a day, one hour before meals. Inject, with small glass syringe, Helmbold's Improved Rose Wash—night and morning.

For Strictures or Painful Erections—Take Extract Buchu as above. Procure a bougie—be careful, and have it smooth and of small size—to this apply sweet oil, that it may pass through the urethra with less trouble. This must be passed very gently, and by degrees, until it has entered the bladder, then let it remain a short time. The bougie should be so passed three or four times a day. This method is destitute of pain and danger, and will overcome the most obstinate Stricture, whenever the medicine is taken regularly, and the patient has sense to do as directed.

For Syphilis, when Syphilis alone exists—Take two teaspoonfuls Sarsaparilla, at night on retiring, and morning on arising, and apply the Rose Wash to the Ulcers with a small sponge or piece of linen two or three times a day. In Swellings of the Groin, bathe the parts with cold water—then apply the Rose Wash.

For Gonorrhea and Syphilis—Owing to promiscuous intercourse, these frequently exist and are contracted at the same time. Take Sarsaparilla, as above and the Extract Buchu, three times a day, two hours after meals. Inject the Rose Wash, as directed, night and morning, and apply it also to the Ulcers.

The Sarsaparilla would be useful, taken in connection with Buchu, in all these affections, although not in all cases necessary; but as in the diseases for which Buchu is used it is difficult to decide—what the inoculation of bad humor may be, or how far it may go—as a precautionary measure it would be well to use Sarsaparilla a week; in this event the directions are the same as in Gonorrhea and Syphilis.

For IMPURITIES OF THE BLOOD, Scrofula, Eruptions, Beautifying the Complexion etc.—Take two teaspoonfuls of the Sarsaparilla night and morning. For CHILDREN, half the above quantity.

In all of the above diseases the patient must bear in mind that the bowels should be kept open by H. T. HELMBOLD'S CATAWBA GRAPE PILLS.

RULES FOR THE GUIDANCE OF PATIENTS.

Use no high seasoned, fat, or greasy food. Acidulous and stimulating drinks, as well as the use of tobacco, should be avoided. Costiveness must be avoided in all of the above diseases. Use gentle exercise, and bathe the parts affected with cold water freely and frequently. Take the medicines according to directions, and not only a safe but permanent cure is guaranteed, no matter how violent may be the case or of how long standing.

A Permanent Cure of Gravel of 12 Years' Standing—Stone Passed and to be Seen.

BURNSIDE, CONN., Dec. 15, 1869.

DR HELMBOLD:

DEAR SIR—It is with much pleasure that I write you upon facts respecting myself. I do not know hardly how to express myself. I have been for the last ten or twelve years the greatest sufferer man could be and live; but more some times than others. The complaint was the "Kidneys" and "Bladder." I have been sometimes from 12 to 14 hours, and wanted to make water every minute, and could not. Have consulted doctors, both in Massachusetts and this State, and taken pills, I may say, by the quart, also liquored medicines, but found no relief from any, and got worse the last six months. I was so that I could scarcely get about. It would soon have been "all up" with me if I had not seen your advertisement in the Berkshire Courier headed "Kidneys." I read it through, and thought I would try it. I purchased a bottle, but, mind you, had not much faith in it. Why should I, when I had been trying so many things and cost me so much? Well, I began taking it, and before I had taken the first bottle I felt bad; but I finished it and got another. By the time I took half of the second I still got worse (apparently). When I walked it seemed as if my left kidney was taken from its place, and I felt really bad. I felt so, before I had finished the second that I made up my mind that it was of no use trying any more—and all this time the Buchu was doing its work, but I did not know it; so I gave it up and went to Hartford on Saturday to one of the best doctors in the city. He said it was the neck of the bladder, and I should have to undergo an operation. He gave me medicine, and I went home quite downhearted. On Sunday I was unable to go to church. I had not taken any of his medicine, but on my return continued using the Buchu, and in the afternoon I had a desire to make water, but could not. About one hour after this I tried again, with the same result; but the next time I took the vessel it was the same as turning a faucet and stopping it off again. It was so for three times, and the third time there was something came through the passage and struck against the side of the vessel. I examined it, and it is the ugliest stone or gravel you ever saw, covered over with little pieces which collected together. It looks the color of a mud turtle, and is as hard as flint. So you see the Buchu was doing its work, although I was feeling so badly. I procured another bottle, thinking there might be some more behind; but since that passed, which is eight weeks ago last Sunday, I have been as well as ever I was in my life. I have the stone securely wrapped, and those who have seen it in this place are surprised. I cannot tell you all, but this is a true story of my case, and you are welcome to make such use of my name as you think proper. I am pretty well known in Berkshire, also in Connecticut. The advertisement saved me. Why not publish more? The Springfield Republican is a wide-spread paper. If any one wishes to see this wonder they can do so. I could write all day, but think I have said enough this time, so I remain your ever well-wisher, EDWARD L. HOWARD,

A Case of Twenty Years' Standing.

PHILADELPHIA, PA., June 25, 1867.

H. T. HELMBOLD, Druggist:

DEAR SIR: I have been a sufferer for upward of twenty years with gravel, bladder and kidney affections, during which time I have used various medicinal preparations and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies and had found them worthless, and some quite injurious; in fact I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and, after using it three weeks, was able to walk out. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

Cure of a Severe Case of Syphilis.

PHILADELPHIA, Oct. 27, 1865.

DR. HELMBOLD:

SIR—Some twelve months since I contracted the syphilis, and, not knowing then its nature, I paid but little attention to it, until I was alarmed by large sores appearing on my face, inside my mouth, and also I could feel them in my throat. I then applied to a physician, who recommended mercury. I followed his advice, and was under his treatment four months, and did not receive any benefit. On the contrary, I became worse, as my system was debilitated from the effects of the mercury, and the disease was not eradicated, as it would break out in different parts of my body. I was recommended to apply to you. I did so, and am pleased to inform you that I am once more well, and feel confident that I should not have been so had I not used your Extract Sarsaparilla and Rose Wash.

Truly yours, W. M. YOUNG.

DR. H. T. HELMBOLD:

DEAR SIR: I had been suffering for a long time from diabetes, and been under treatment for same by three of the most eminent physicians of this place, viz: Drs. Hasbrook, Hall, and Smith, without any apparent beneficial result. Having heard of your Fluid Extract Buchu, I concluded to try it, although I had but little faith in its curative properties. I am happy to state that, after taking four bottles of your Buchu I am entirely cured, and deem it but my duty to you and the community at large to inform you of the fact that I have been permanently cured by your medicine, after having been informed by the three physicians above named that my disease was incurable. Truly yours, JOHN H. WYGANT.

Cure of Bladder and Kidney Affection of Long Standing—Stone passed and to be seen.

WESTPORT, CONN., Sept. 5, 1869.

H. T. HELMBOLD, Esq.:

DEAR SIR: I commenced taking your "Extract of Buchu" about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed from my bladder about the size of a LARGE PEA, and I now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

Yours truly, THOMAS J. BENNETT.

Cure of Kidney and Bladder Affection of a Patient Seventy-Eight Years of Age.

THANKS TO MR. HELMBOLD.

GIRARD, PA., March 31, 1869.

EDITOR COSMOPOLITE: I desire, as an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that, after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from the aggravated kidney and bladder diseases from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using with little faith and no apparent beneficial results for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use, and now, at the expiration of four months, although I am an infirm old man, nearly seventy-eight years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAREN.

NEW YORK STATE VOLUNTEER INSTITUTE.
Corner of Fifth avenue and Seventy-sixth street, Central Park.
(A HOME AND SCHOOL FOR THE SONS OF DECEASED SOLDIERS).

DR. H. T. HELMBOLD:

Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. In the case of our little Lieutenant, A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the children under our charge may save many a Superintendent and Matron of Boarding Schools and Asylums a great amount of annoyance; and many a poor child, suffering more from weakness than from habit, may be spared punishment, that is (not knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. Thanking you on behalf of the children, and hoping others may be alike benefited,

I am respectfully yours,

COL. YOUNG,

General Sup't and Director.

H. T. HELMBOLD, Esq.:

DEAR SIR: I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your Buchu has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. ACCIDENT placed your advertisement in my hands. I commenced taking your Buchu. I followed the directions, and to my utter astonishment, before I had taken seven bottles of your valuable medicine (I would give ONE HUNDRED DOLLARS a bottle, if I could not get it at any other price), I am entirely cured. I most earnestly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success. Any information my fellow-citizens may require will be freely given by the subscriber at his residence, 78 Milton avenue, Rahway, New Jersey.

DANVILLE, PA., April 11, 1866.

DR. HELMBOLD:

Seeing your advertisement in the Danville papers, I concluded to try your medicine for my daughter, who is just verging into womanhood, and who had been troubled with St. Vitus' dance, besides a syphilitic affection, and a nervous twitching of her body for upward of three years, greatly to our distress. I gave it to her regularly for three weeks; she improved under its use, and I concluded to give it a thorough trial. This was about ten months ago. She had not consumed the whole amount before a cure was effected, but she continued to use it up to six months since, at which time she has entirely recovered from these distressing affections. Feeling grateful for the benefit derived, I have been prompted to send this certificate,

Very respectfully, yours,

JAMES E. DOWLING.

United States Hospital.

SALISBURY, N. C., March 18, 1866.

H. T. HELMBOLD, Esq., Philadelphia, Pa:

DEAR SIR—I wish you to send me one dozen of your Sarsaparilla Extract and half a dozen of your Rose Wash.

Allow me to say that your preparations are very satisfactory, not only to the practitioner, but also to the patient, and I shall endeavor to bring them to universal use in this part of the country.

Please forward these medicines again as before, C. O. D., per express.

I am, very respectfully, yours,

M. F. A. HOFFMAN,

Surgeon in charge of Hospital.

PHILADELPHIA, August 13, 1869.

H. T. HELMBOLD:

SIR—I have used your EXTRACT BUCHU with many of my patients, and can speak of it in the highest terms in every case, and consider it a valuable remedy, and one that should be in the hands of every midwife.

Very truly yours,

Cure of Nervous Prostration and Decline of a Young Lady.

H. T. HELMBOLD: I have been giving your Extract Buchu to my daughter, who has been unable to sleep, very nervous, loss of appetite, general debility, and rapidly falling into a decline—in fact consumption was talked of. I was recommended to use your Buchu by a highly respectable lady of this place, who had given it to her son with complete success. My daughter had been troubled for a long time. I purchased one bottle some eight weeks since, which lasted one week, and from which she received a great benefit, and induced me to purchase one-half dozen bottles, as I had tried many other remedies and my family physician to no avail. It is now more than two weeks since she has taken the last bottle, and I am happy to inform you of its complete success.

Very truly yours, GEORGE M. MARSHALL.

Speedy Relief from Kidney Affection Occasioned by Accident.

NEW YORK, February 1, 1870.

DR. H. T. HELMBOLD:

DEAR SIR—On the 23d of August last I received severe internal and external injuries, occasioned by an accident on a Philadelphia railroad car. On my arrival in New York I was attended by Dr. Wilson, of East Fifty-fifth street, and another physician, whose name I do not now remember. After my wounds were dressed I suffered for three days intense agony from internal injuries, which affected my kidneys. I can say that after taking but three doses of your EXTRACT BUCHU I felt greatly relieved. I used the balance of the bottle, and am happy to state that since that time I have experienced no further difficulty.

Very truly yours,

P. H. KEARNEY,

No. 8½ Third Avenue.

Mr. Kearney respectfully refers to either of the following gentlemen:

And many others if necessary.

From a Professor of Surgery, Surgeon and Clinical Lecturer to the Almshouse Infirmary, &c.

I have employed the medicines of Dr. Helmbold in numerous instances within the last three years, and have always found them extremely efficacious, especially in diseases of the urinary organs, gonorrhea, syphilis, etc. I have no hesitation in pronouncing them of inestimable value, and worthy the confidence of the faculty.

Certificate of Jas. D. Lahey, of the firm of Theodore Megargee & Co., Paper Manufacturers.

PHILADELPHIA, Dec. 9, 1864.

DR. H. T. HELMBOLD:

DEAR SIR—In November, 1863, my son, aged "one year," was taken with sore eyes and scalp disease, and after using various medicines by advice of seven different physicians, to no purpose, I was advised by a friend to try your Extract of Sarsaparilla, after using three bottles of which the child is almost entirely cured, the disease of the head having all disappeared, and the specks on the eyes diminishing daily. I shall continue to use your Extract, and cheerfully recommend it to others as a safe family medicine. Yours truly, JAMES D. LAHEY.

DR. KEYSER.

DR. KEYSER IS A PHYSICIAN OF OVER 30 YEARS' EXPERIENCE, AND A GRADUATE OF THE JEFFERSON MEDICAL COLLEGE, AND OF THE UNIVERSITY OF MEDICINE AND SURGERY OF PHILADELPHIA.

MR. H. T. HELMBOLD:

DEAR SIR: In regard to the question asked me as to my opinion about Buchu, I would say that I have seen and used every form of Buchu—the powdered leaves, the simple decoction, tincture, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours. Thirty years' experience ought, I think, to give me the right to judge of its merits, and, without prejudice or partiality, I give yours precedence over all others.

I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietary compound of whatever name.

Respectfully yours, &c.,

GEO. B. KEYSER, M. D.,

140 Wood street, Pittsburg, Pa.

August 11, 1865.

From the Principal Physician of the Sanitary Infirmary of the State of Louisiana.

PARISH LA FOURCHE, LA., April 29, 1870.

H. T. HELMBOLD, Esq.—DEAR SIR: I have in my practice used (in the majority of cases where disease of the urinary organs existed) HELMBOLD'S EXTRACT OF BUCHU, and can confidently say that I have never known it to be used without the greatest beneficial results. I have consulted patients after partaking of it, and they invariably confirm my statement. I am satisfied that the preparation is an established fact, convincingly proved by the practical test of long experience. Yours respectfully,

JOHN B. C. GAZZO, M. D.

Cure of a Case of Stricture of Eleven Years' Standing.

WILMINGTON, Oct. 30, 1865.

DR. HELMBOLD:

SIR—I have for 11 years been suffering from a stricture of the urethra, and under treatment of different physicians the whole time, who were continually using various remedies, and all of them very painful, without any permanent good; they would relieve me for a few days, and then I would be as bad as ever. Seeing your advertisement, I thought I might obtain relief from your EXTRACT BUCHU. I purchased some, and its good effects were such that I determined to persevere, and, by following your advice, I am now entirely well, and consider that, had it not been for your valuable medicine, I should have been compelled to suffer all my life.

Accept my thanks, and I shall recommend your medicine wherever I think it is required.

Yours, very respectfully,

CHAS. H. MARTIN.

Cure of Tetter.

Great Cure of Diabetes of a Lady: Fifty Dollars a Bottle.

NEW YORK, Feb. 6, 1870.

DEAR DR. HELMBOLD:

DEAR SIR: For the past eight months I have been suffering from diabetes. I have consulted several of our leading physicians, but have failed to receive the slightest benefit from their costly medicines.

Four months ago I saw your advertisement in the Herald. I was persuaded by a friend who had been benefited by your world-renowned Buchu. I purchased a bottle, took the contents, and was so relieved that I continue the use of it. The diabetes has entirely disappeared after using it for three months. I would give $50 a bottle if I could not get it at any other price.

I most earnestly recommend it to all those suffering from this disease.

Sincerely yours ANNA E. STOUGHTON,

123 West Twenty-seventh street.

From a Practitioner of Twenty Years' Experience.

MR. HEMBOLD:

SIR—Having a very bad case of gleet to prescribe for, I concluded to use your Extract Buchu and Rose Wash. I am pleased to inform you that its action was entirely satisfactory, and exceeded my expectations. I have prescribed your Buchu in affections of the bladder and kidneys with the same gratifying result.

Truly yours, EDWARD L. SHAW, M. D.

Cure of a Case of Dropsy of the Testicle.

H. T. HELMBOLD—Some eighteen months since my testicles suddenly commenced swelling, causing me some little uneasiness, but, attributing it to cold, I paid no attention to it, until it increased so much that I became alarmed, as, with the increase in size, I commenced experiencing great pain, and applied to a physician, who recommended me to make a decoction of Buchu leaves. I did so, but found I did not obtain much benefit. I then determined to use your Extract Buchu, as a friend recommended it very highly, and I am pleased to state that I derived benefit from it, and, continuing its use, I was restored to health, and I believe it has invigorated my whole system.

Very truly yours, CHAS. DEAN.

NORRISTOWN, April 21, 1866.

Severe Case of Swelled Testicles Perfectly Cured.

TRENTON, N. J., Nov. 15, 1865.

DR. H. T. HELMBOLD:

DEAR SIR—Having some two years since met with a serious injury to my testicles while mounting a very restive horse, I suffered the most intense agony, and was compelled to wear a suspensory bandage, which caused great uneasiness. I tried several remedies recommended by my family physician, but could obtain but partial relief. I saw your advertisement in the paper, and concluded to try your Extract of Buchu. I derived benefit from the first bottle, but continued to wear the bandage, and its effects were such that I purchased more, and the testicles, from being swelled nearly as large as a hen's egg, soon assumed their natural size, and, by using thirteen bottles, I am completely cured, and can dispense with the bandage.

I am, sir, sincerely yours,

GEORGE WALTON.

Cure of Case of Gravel of Nine Years' Standing.

PHILADELPHIA, GIRARD HOUSE, April 19, 1866.

DR. HELMBOLD:

DEAR SIR—Having suffered with Gravel for upwards of nine years, and not obtaining any relief from the various physicians in my section, I visited Philadelphia for the purpose of having an operation performed, some ten or eleven weeks since; but, on my arrival, I saw your advertisement in the Ledger, and determined to try it first, having a great aversion to the operation. I purchased three bottles, although at the time I had little faith in medicine in my case, but hoping it might relieve my suffering. I soon found my pain decreased and felt much more comfortable. I then purchased one dozen bottles. I continued to use it, and at the expiration of four weeks I noticed a deposit in my chamber, and upon inspection I found this to be gritty, and then determined to examine more closely, and, to my surprise, I found this to be small particles larger than a pin's head. I continued to use the medicine, and have collected a few of the same, which I inclose; I continued to pass them until within three weeks. My water previous to using it was feverish, and a sediment would form from it; since that period it is much lighter, the pain has ceased, and I am able to inform you that it is now of a natural color, and I have no "pain" or "inflammation" in any part of my body, and can walk, ride or rest without any inconvenience.

I shall leave for home to-morrow, and shall take a supply with me, as I intend using it for some time, although I feel well now, and can candidly say it has effected a cure when all other remedies and medical skill had failed.

Feeling grateful that I was so fortunate to find and you to prepare such an excellent medicine, believe me, in the most comprehensive sense of the word your friend, J. S. SANDERSON.

Disease of the Bladder and Gout of the Kidneys Cured.

H. T. HELMBOLD:

I consider thy COMPOUND FLUID EXTRACT BUCHU one of the best medicines for Diseases of the Kidneys and Bladder. One bottle relieved me of severe Gout of the Kidneys, and I was entirely cured by the use of six.

Respectfully, thy friend,

S. M. JOHNSON.

BURLINGTON, N. J., May, 1853.

A Stubborn Case of Gonorrhea Cured.

ALLENTOWN, PA., Aug. 3, 1865.

DR. HELMBOLD:

SIR—I am very glad to inform you that I have, by the use of your Extract Buchu and Rose Wash, been cured of Gonorrhea, which I had for about six or seven months, suffering all the time, although I was under the care of different physicians to no benefit. The symptoms of my case, as near as I can explain them, were as follows: pain and heat in passing water, with a copious discharge of matter; severe pain in the groin; the testicles swollen, and very painful to the touch; costiveness, with a constant desire to urinate, and painful erections at night. I am now effectually cured. I intend taking three or four bottles of Extract Sarsaparilla, as I know it will be of great benefit to me.

I send this that you may publish it.

I am, sir, your obedient servant,

C. M. SWANSON.

A Bad Case of Syphilis Effectually Cured.

FRANKFORT, PA., August 25, 1853.

DR. HELMBOLD:

SIR—Some three or nearly four years since I was unfortunate enough to become affected with the syphilis, and, as it did not occasion much inconvenience, paid no attention to it until it made such rapid progress that my whole system was affected by it, and I had sores all over my body, of various sizes; my hair commenced coming out, and also my eyebrows; in fact, I was completely poisoned with it. I then applied to a physician, who stated that the only cure was mercury. This I took in large quantities, and at first I concluded it was curing me, but I soon found out that it was only partial, as it would break out again as bad as ever. I used different hair washes and restoratives to no avail, as my hair would be continually coming out, and I was very weak from the effects of the mercury. I had pains in my bones and in different parts of my body, and concluded there was no hope or relief for me.

My face was so full of these sores that I could not go into company, and I felt that every one must know the cause. I wished for death to rid me of this torment. I was in this condition when I saw your advertisement, and concluded to place myself at once in your charge, and I am now entirely cured; my face is healed, and has a healthy appearance. I have not had a sore on me for three months, and I feel as well as ever. My hair has grown out again. I feel that my life has been saved by your valuable Extract Sarsaparilla, Rose Wash, and Catawba Grape Juice Pills.

I am, sir, your obedient servant,

HY. McDERMOTT.

AMUSEMENTS.

Masonic Temple.

An interesting entertainment is to be given by the inmates of the Blind Asylum for the benefit of the Ladies' Masonic Widows' and Orphans' Home at the Masonic Temple on Tuesday, May 16. Tickets may be secured at Tripp's Music store.

Picnic.

To-day the Coopers' International Union will give a picnic in Baker's woods, near Jeffersonville. Mr. A. Foran will deliver an address. At 8 o'clock in the morning a special train will leave the Bridge depot. A large delegation is expected from Madison. There is a general invitation extended to the public.

Minstrels.

Since the Skiff & Gaylord minstrels were last in this city considerable accessions have been made to the company. The troupe now embraces a large number of artistes whose versatility of talent has obtained very favorable notice from the press. The people of this city will have an opportunity of attending the entertainments given by these minstrels shortly.

The Mueller Matinee.

The exhibition of fancy dancing by the pupils of Monsieur and Madame Mueller on last Tuesday evening, at Weisiger Hall, was so much appreciated that its repetition as a matinee had been requested, and is to be given this afternoon at the same hall. All the dances in the last programme will be presented on this occasion for the last time by the pupils, and no doubt with equally brilliant results. A crowded house is expected, and ladies and gentlemen would do well to secure tickets early.

The Circus.

The sensation circus of "Yankee Robinson" continues successfully. The performances both yesterday afternoon and last night contained several new features, and were well received. Frequent rounds of applause greeted the different scenes, and every one seemed to enjoy the remarks of the clown. A little minor department of the circus contained some interesting curiosities, among which was a sea-cow, with horns turned in the wrong direction and with scarcely any hair on its body. There was also a talking doll which was more intelligent than ordinary children. It could answer questions and talk upon different subjects. The show is quite interesting.

CITY BUSINESS.

☞ We would ask our readers to give some more than ordinary attention to the advertisement of Messrs. Hegan & Bros., on our first page. The prices at which they are offering wall papers, window shades, pictures, frames, etc., are surprisingly low. Their special sale which commenced on the 1st instant, will not be of very long duration, for as soon as their immense stock is sufficiently reduced they will bring their prices up to a par with the regular rates of all dealers. They positively assure us that the goods they are now offering at retail and wholesale cannot be obtained at the same prices from the Eastern and European manufacturers, unless taken in large quantities. The enormous quantity taken by them alone enables them to offer their goods so low. Such of our citizens as have houses to paper, either now or at some future period, would do well to go to Hegan's and examine the advantages there offered. Messrs. Hegan say that all they solicit is an examination of the inducements they offer, for they know the inducements are extraordinary.

For our part, we would say, be prudent and take advantage of a rare opportunity. "There is a tide in affairs of" mortals which, if neglected, will be an everlasting cause of self-reproach. Examine the offer now made you, and consider well if you may not in the future reproach yourself for not "grappling it with hooks of steel" as your very best friend.

☞ The great projected improvements, with those already under way, the early completion of the ship canal, the Short Line railroad connection by way of the old bed of Beargrass creek, with the immense lumber, pork and manufacturing interest now centering in the eastern part of the city, certainly without doubt point to a grand future for that portion of the city. Property about and within a few squares of the Galt House, now selling for $500 per foot will in a few years sell for as many thousands. There is no portion of the city with brighter and better prospects for the future.

☞ The Volksblatt announces that it will publish on Monday an extra edition for Europe, containing a full report of the peace celebration and twenty-eight columns of reading matter. It solicits advertisements for this one edition.

AN EYE CUT OUT.

Sally Fight Over a Game of Marbles.

Some employes of the Louisville and Nashville Railroad Company were playing marbles at the depot yesterday afternoon, when two of them, named Abe Troy and Denny Hines, got into a fight, which resulted very seriously to the latter. It appears that a counterfeit bill had passed between the two, in consequence of which there has been a standing feud for several weeks. In the game yesterday, Troy threw a rock at one of the marbles and thereby displaced it from its position in the ring. Hines took the same stone and hit Troy on the leg with it. This brought matters to a crisis, and Troy struck Hines one terrible blow on the left eye, some say, with a knife, while others, that it was with a brick bat. The eye-ball and lid were badly cut and the blood rushed down the cheek in a great stream. The sight may be destroyed and the suffering for the next few days will be intense. Troy was arrested on the charge of cutting with intent to kill, and was taken to Twelfth-street station-house.

Gov. Leslie's Speech.

The speech of Gov. Leslie, upon being called to the stand after his nomination, was sent us by telegraph that night, but in the midst of the large mass of matter that made up our full report of the proceedings, was misplaced and did not reach us until the morning following. As it is of so much interest we publish it even at this late day.

Gov. Leslie, being escorted to the chair, proceeded to address the convention as follows:

GENTLEMEN OF THE CONVENTION: It is utterly impossible for me to express to you the feeling of gratitude by which my heart is now moved. I feel overwhelmed with gratitude to you for your kind partiality, for your friendship and for this distinguished honor which you have conferred upon me. I would not now undertake to present to you anything of a speech. It is right and proper that I should only return to you my thanks, and pledge to you that, at as early a day as I can, I will go forth, bending all the energies of which I am master in presenting the precious interests of the country as found in the Democratic policy. [Applause.] It will be the highest pleasure of my life to devote myself to appropriate all that I am, and all that I have, in vindicating the honor and the interests of my party and my country. I have no feelings of triumph in my heart over those who have struggled with me in this contest, whilst I feel of love and gratitude to my friends who so perseveringly stood by me through all the phases of this contest. Yet at the same time, I have no enmity, no resentment to any Democrat who has been opposed to me. [Applause.] Indeed, I feel that no Democrat was opposed to me, only I feel that they preferred other gentlemen. We are one family. I trust and verily believe that the heart in the Commonwealth of Kentucky will give me a hearty support [applause], and I pledge you that at as early a day as I can, I will traverse the length and breadth of the State in presenting the doctrines and principles which I verily believe are to save this country from the ruinous tendencies of centralization. I thank you, gentlemen, with the fullness of my heart. We will co-operate from time to time in all the different parts of the State in striving as well as we can yet to save our sinking country. The pathway before us is gloomy, but I trust in God and in the amount of patriotism which exists and animates the hearts of Kentuckians. I trust and believe we will be able next August to send out to the States such a proclamation as will swell the hearts of patriots throughout the nation.

THE WEISIGER HALL SEANCE.

Miss Keyser's Description of the Spirits in the Audience, and What They Said.

SOME CLOSE SHOTS.

Last night, at Weisiger Hall, a Spiritual seance was given by Miss Lizzie Keyser. The audience, though small, was very respectful, as a Louisville audience generally is, and listened with becoming patience to what was told by one who professed to stand upon the threshhold of both worlds and transmit communications from either. It was impossible to avoid observing skeptical smiles upon the countenances of a considerable number of ladies and gentlemen dispersed among those who were earnest believers or were awe-struck with the proceedings. It may be that the skeptical persons had heard sufficiently often and quite long enough that Spiritualism is in its infancy, and now think it is high time that the new religion assumed at least the garments of adolescence, and gave, through its priests and priestesses, something worth being spoken and listened to. Truth to tell, there was nothing offered last evening as good evidence of the new faith having developed itself to any extent whatever. What was told as coming from spirits, might with great facility, be learned at any ordinary tea-party, graced with the presence of a few ladies of a certain age, possessed of the usual gossip of the neighborhood. Miss Keyser may or may not have obtained her information in this way; but there are many—so very many—who, if two means of acquiring information are assumed—one very natural and common and the other supernatural and beyond ordinary experience—will be most ready to discriminate in favor of the one of which they have had themselves practical acquaintance and not always of the most agreeable kind.

The medium walked from side to side of the stage, and scanned the audience, whether for the purpose of recognizing the individuals composing it, or of selecting the spirits who had honored the meeting with their presence, or of both, was not clear. She gave her communications somewhat in this way:

"Between two ladies, near the side aisle, is the spirit of an old gentleman, heavy set, having gray hair. He is a German. He gives only one name—Wilhelm. Do you recognize the man?"

One of the ladies—"Is he an uncle, or what relation is he?"

Medium—"He is a very near relation and seems very much attached to you. He has his hand on your shoulder."

Lady—"If he could give his full name or a communication I might recognize him."

Medium—[To lady] "I cannot give the other name!" [To audience]—"Lady does not recognize the spirit."

At the other side of the hall she described the spirit of a soldier and gave the position he occupied.

"It is the spirit of a soldier in Confederate uniform. He has dark hair. I cannot see his eyes—his eyelashes are long. He has a full face. Gives one name—Courtney." [Pause.] "Is he recognized?" [Pause.] "He is not recognized." [Pause.] "The spirit says he ought to be recognized, as many who knew him are present here. He gives the other name—Prentice."

Voice in the audience—"He is recognized by several."

Some one asked if he had any communication to make.

Medium—"Spirits as a general thing have their own ideas. I only give what they say. He wishes his brother to know that he does not regret having fallen in the cause for which he died, and he wishes his brother to know that he is with his mother."

"A spirit is here of a man of stout build; he has a full face, wears a moustache, has light eyes; he comes as a general in Federal uniform; he died at Orleans. He calls himself Alexander von Schroeder." [Pause]. Several recognize the spirit.

"I see the spirit of a small child near ——" (mentioning a gentleman's name). "I get the initials of the name—E. H. T." [Pause].

Gentleman recognizes the name. [Pause].

"The name was given the child after it was dead." [Pause.]

A gentleman says this statement is correct: "Between these two ladies," pointing to them, "is the spirit of a young man who has been in the spirit world six years. He is tall, slender, has dark eyes, his hair is dark brown and inclined to curl. He claims to be the ladies' brother and gives the name of John Seidbottem." (Pause.) "He is recognized." (Pause.) "He says 'Give my love to Ed and Gus and all the rest of them. Give my love to the refugees. When you go home say I am glad I am in the spirit life (he is smiling) because I can be often with father and mother and the rest of them,' and he adds with a smile, "if I was alive I could not be with them so easily as they live so far apart.'"

The above are picked out at random from the notes taken of the "spirits interviewed." Many spirits were described that were not recognized. At the conclusion of the seance a gentleman came forward, thanked the audience, alluded to the infantile condition of the new religion, and the necessity of as yet charging for admission to spirit manifestations, and intimated that another seance would be given next Sunday night.

ABOUT A MACHINE.

The Cause of an Insurrection in a West-End Community.

A handsome white fellow, accompanied by a lovely colored girl, visited the house of his acting mother-in-law, near Fifteenth and Grayson, on Thursday night, and while there the ladies became involved in a dispute about the relative merits of two sewing machines which they had severally owned for some time. One of them remarked that her machine cost more money than the other, and consequently was finer. The other claimed for her machine that it was purchased of a very fine firm, composed of such fine men that it must be the finer of the two. Thus each urged the claims of superiority for her property. The dispute became warm and animated, and several others, among whom was the handsome white fellow, the beau of the evening, took part in the discussion. The matter soon passed into an angry quarrel, and the latter into a general fight. Policeman Wyatt came in, and his presence overawed the deep-seated anger of the combatants. He describes the scene in the emphatic words, "Hell was cut up by all parties." The couple returned to their home near Eighth and Grayson streets, and thus matters rested until yesterday morning about 6 o'clock, when Mr. Wyatt, accompanied by John Burk, went to arrest the white man. He was in a two-story house, and ran up through the building to the roof as the policemen entered the front door. A large rope, attached to the chimney, was extended across to the next house, and another one was suspended from the center to the ground. This was the only avenue for escape; so he crawled out to the middle and slided down the line, thinking that he was about to evade the vigilance of the officers. But he was very much surprised to find that his descent carried him right into the arms of two stalwart policemen, ready to convey him to the nearest station-house. His dusky female friend was also taken along, not as a prisoner, but as a witness to the revelries of the preceding night. The landlady of the house near Fifteenth and Grayson has taken out peace warrants against all her tenants, and all her tenants have taken out peace warrants against her. Most of them were arrested yesterday and taken to the station-houses, and the others will be taken up as soon as practicable. It is to be hoped that the Grayson street quarrel has passed its worst stages and that a more friendly spirit will in future pervade that section of the city.

DECORATION DAY.

Some Information for Those who Will Assist in the Ceremony.

We are requested to make the following announcement: That, at the meeting held at the Galt House by the ladies on Wednesday afternoon, the suggeston was made, and unanimously adopted, that all those who propose to purchase flowers for decorating the Confederate graves be requested not to expend the money in that way, but to bring it with them and deposit it in the boxes which will be placed at the graves to receive it, in order to raise a fund sufficient to finish supplying headstones for those not already furnished, about one half being yet needed. It is not to be understood by any means that the beautiful custom of strewing flowers over the graves will be in any way interrupted, for all those who have flowers at their homes will of course bring all they can, and thus prevent the necessity of *purchasing*. Arrangements will be made with the officers of the cemetery, and due notice given through the papers of it, to admit into the cemetery all who may wish to pay this beautiful silent tribute to the dead of the Lost Cause on the afternoon of the 10th, between the hours of 3 and 6 o'clock, and it is earnestly hoped that the friends of the soldiers who now sleep in this "city of the dead" will come prepared to furnish whatever means that may be necessary to attain the object alluded to; for without some such action time will soon obliterate the last trace of the Confederate resting place in Cave Hill cemetery.

Limerick to Vote.

The people of this district of the city have been, since the date of Mr. Albert S. Willis' decision ruling them out of the voting part of the city, from some informality, much excited over the matter. Yesterday, however, Judge Hoke decided that the people of this district have the right to vote in the election to-day, and delivered the books to Mr. Thos. Riley, clerk, who will open the polls at the corner of Eighth and Churchill streets. This enables the voters of this section to cast their ballots with those of the Eighth and Ninth wards.

Court of Appeals.

The docket for the summer term of this court will be closed on the 17th of May. All appeals for that term must be filed on or before that date.

CITY POLITICS.

Fifth and Sixth Wards.

Our old friend and much-esteemed citizen, C. W. Bliss, is a candidate for Constable in the above wards. Mr. Bliss is well and favorably known, and all good citizens who are in favor of electing to office good and worthy men, will certainly turn out early this morning and secure his election. It is true the office is small, but it is of vast interest to Mr. Bliss, for he needs the office; and it is the duty of good citizens to elect to office the most competent man, and the one the most needy. Therefore, pay no attention to the statements made by the friends of other candidates, but go to the polls early this morning and vote for Bliss. He is sure to be elected if his friends turn out and vote, as they have agreed to. * * *

Eleventh and Twelfth Wards.

While we do not wish to interfere in our local elections, at the request of some business men we desire to call attention to the election of constable in the Eleventh and Twelfth wards. Robt. Board has been induced by some of our best citizens to make the race, and we do hope our citizens will spare time to-day to go to the polls and cast their votes. It is directly to the interest of all parties that we have such men as Robt. Board in office. He is honest, responsible, and in every respect trustworthy.

LOCAL BREVITIES.

THE Portland station-house contained two drunks—Tom Shields and Pat Duncan.

SPRING clover is being cut and brought to town in small bundles, which sell at the rate of ten cents for three bundles.

COL. W. M. WILSON'S fine residence, near Horse Cave, Barren county, was destroyed by fire a few nights since. He and his family made a narrow escape.

A MAN named Fred. Nitzel was hurt yesterday by the machinery of Tapp & Kennedy's bagging mill, corner Nineteenth and Walnut streets. His finger was caught between the cog-wheels and completely crushed.

THERE was one drunk at the Seventeenth-street station-house—Kiernan Connell. Officer Kern found him on the avenue, and arrested him at the request of a saloon keeper, to whom his disorderly conduct was very annoying.

THE register of the jail read last night as follows: Morris Thompson, stealing a shawl; Mollie Wise, drunk and disorderly conduct; George Taylor, cutting with intent to kill, and Lizzie Arnold, held over from the Circuit Court.

A MAN named John W. Miller was yesterday oiling the cog-wheels of some machinery at the tobacco warehouse of Robinson & Hemes, and his thumb was caught under the wheel. It was badly mashed, and amputated as soon as the doctor came.

THE case of the Commonwealth against J. D. Proctor, for obtaining money under false pretences, was called in the Circuit Court yesterday morning and dismissed from want of evidence, which we are happy to announce, particularly as the young man was of excellent family in this State.

YESTERDAY an old man stepped into a saloon on Hancock street and ordered a glass of beer, which, after drinking, he was either unable or unwilling to pay for. Thereupon Geo. Kolb, the brother of Conrad, who killed Bud Odell recently, assaulted the old gentlemen in rather an unfriendly way, and was at once taken to the Clay-street station-house by the police.

TWELFTH-STREET station-house last night contained the following names: John O'Brien and Aug. Frey, assault and battery, were arrested by policemen Howard and Krakle; Ollie Wright stealing a pistol from H. Hartwell, and robbing the money drawer of C. W. Perry; and Abe Troy, cutting Denny Hines; Mary Caldwell, drunk and using profane language on the streets, was arrested by officer T. Shelly.

A GENTLEMAN walked up Main and Jefferson streets yesterday, and came very near being bitten by dogs no less than three times. He thought that the canine species had a special spite at him. He thinks that these animals are on the streets too much. A case of hydrophobia has occurred within a fortnight, and others may be expected if dogs, which at any time may go mad, are turned loose on the public highway.

GREAT excitement prevailed on Market street yesterday over a horse which fell to the ground while attached to a buggy. The animal could easily have gotten up had it not been for the harness and buggy. No effort was made to take these off, and he rolled about, making several unsuccessful efforts to rise. A large crowd assembled to witness the struggles of the horse, which eventually placed him on his feet.

HARRODSBURG.

County Court Day and a Baptist Dinner—Political Matters—Shooting Affray—The Fruit Killed by Frost, Etc., Etc.

[Correspondence of the Courier-Journal.]

HARRODSBURG, KY., May 3, 1871.

Another court day, another Baptist dinner and another shooting scrape are to be chronicled in the history of Harrodsburg. Although business of all kinds seems to exist in a state of lethargy, yet last Monday was quite a lively day, and our town was well filled with county men and visitors. The ladies of the Baptist persuasion have been giving dinners at the court-house, on court days, for the benefit of their church, for which they charge fifty cents per head; and although the hotels reduced the price of meals for that day to twenty-five cents, yet the ladies were well patronized and realized quite a handsome sum. During the day Representative Capt. McAfee, who is a candidate for re election to the Legislature, made a speech, and gave an account of himself for the two years he has just served. He seems highly pleased with Frankfort life, and is quite anxious to spend several more winters there. He was followed by Messrs. Munday and Kennedy, who are also candidates for that office, but the majority of our citizens are in favor of Capt. J. B. Clark, the editor of the Kentucky People, who is not only a man of good business qualifications, but is also a very talented lawyer and a gentleman who enjoys the confidence and esteem of all who have any acquaintance with him.

The Republicans held a caucus too on Monday, and elected delegates to their convention, to be held on the 17th June.

From the fact of its being court day, and a much larger crowd than usual in town, there was a considerable number present, and the meeting was a very respectable one in size. The only Republican candidates for offices from this county are ex-Congressman John B. Thompson, for Governor, and Judge T. H. Hardin, for Attorney General, both of whom are lawyers of acknowledged ability, and the Republicans could not make better selections. It is whispered around that the names of these gentlemen will come up before their convention, and their chances for the nomination are spoken of as favorable.

As is often the case on public days we had a shooting scrape here, but fortunately nobody was hurt this time, although several shots were fired into a dry goods store, where there happened to be a number of ladies shopping. The parties were promptly arrested and held for trial.

The May term of our Circuit Court meets on Monday next, the 8th inst., and will probably continue several days longer than usual owing to the large number of cases on the docket which were not disposed of at its last session on account of the death of Judge Kavanaugh, which occurred in the middle of the term. Our lawyers are looking forward to its meeting with an unusual degree of interest.

Farmers and fruit growers are making great complaint about the damage done by frost to fruit and wheat.

Nearly all the fruit in this county was either killed or injured by frost, and in many cases wheat and rye fields were destroyed. Some farmers are plowing up their entire wheat crop and planting the ground in corn. Others have turned their stock on it to feed down, while others are running the risk of its heading out again. No correct estimate can be made of the damage caused by that one frost but its effects are more or less felt by every one. IZARD.

Formidable Strike of the Erie Canal Workmen—The Military Brought into Requisition.

ROCHESTER, N. Y., May 4.—There is a formidable strike among the laborers employed at the great break in the Erie canal, nine miles from this city. All work has been suspended and the contractor has telegraphed to the Mayor for military assistance. The Sheriff of the county has called for the military, and Brig. Gen. Clark has ordered out two companies of the National Guard for duty. The Sheriff, Mayor, and the military will leave at about 4 o'clock this afternoon for the scene of the disaster.

ROCHESTER, May 4—Later.—Two military companies have gone to the scene of the riot and two more are at the armory, ready to move on receipt of orders. The latest reports state that the fighting was not of a serious nature.

Judgment in Favor of an American.

KINGSTON, JAMAICA, May 3.—The jury in the suit of Charles Levy & Co, against Dickson, the American Captain of the wrecked brig Penniman, returned a verdict for the defendant. The jurors were six to one, and were out only ten minutes. Voluntary contributions were freely made to Dickson. The plaintiffs are likely to carry the case to the Superior Courts, and even to England.

Eight Men Drowned.

NIAGARA, ONT., May 4.—The life-boat belonging to Fort Niagara got adrift during the gale this morning, and a boat manned by six sailors and Lieutenants L. G. Ashbury and J. C. Morris, started in pursuit, but their boat was capsized and all were lost.

☞ The advertisement of a Pennsylvania railroad, in December, 1832, read: "The engine, with a train of cars, will be run daily, commencing this day, when the weather is fair. When the weather is not fair the horses will draw the cars. Passengers are requested to be punctual at the hour of starting."

BASE-BALL.

Game Between the Red Stockings of Boston and the Olympics (Blue Stockings) of Washington—Score 20 to 18 in Favor of the Former.

THE SEASON FAIRLY OPENED.

[Special Correspondence of the Courier-Journal.]

WASHINGTON, May 5.—To-day may be pronounced an epoch in the year's annals of base-ball for several reasons, chief among which are the facts that it records the opening of the first professional game of the season for the championship of the United States, and that the participants embrace the entire first nine of the old Cincinnati Red Stocking club, torn from their Western admirers and doing duty—four in Boston as short-stop, center-fielder, right-fielder, and first-baseman of the Boston club, while the remaining five, as catcher, left-fielder, and second- and third basemen are working with a vim for the credit and renown of the Olympic Blue Stockings, of this city. The game of this evening has been the theme of discussion, speculation and excitement in base-ball circles ever since the opening of the season, and it is understood in sporting circles that a very heavy pile of lucre changed hands because of the result.

The game was announced to commence at 4 o'clock, and long before that hour the streets leading to the Olympic base-ball grounds, which, by the way, may be compared favorably with any field in the country, was thronged with pedestrians and vehicles, so as to be present at the commencement of the tossing. About four thousand spectators attended and welcomed the clubs as they appeared with shouts of applause. The ground was in passably good condition, although it had been thoroughly washed by a forty-eight hour rain. The umpire chosen was a reporter of a sporting paper and was well qualified for his position. His name is Mr. H. A. Dobson. Game was called at [illegible] o'clock, with the Olympics handling the ash, and the Boston club in the field. In the first inning the Olympics scored 6 and the Boston 1. In the second inning the Washington club made 4 more runs, and Harry Wright's men were treated to a round naught. From this time until the end of the 7th inning the game was somewhat tedious, the score at that point being 15 to 12 in favor of the Blue Stockings. In the 8th inning the Olympics made 3, which brought their score up to 18, the Boston Club also making 3, and standing at 15. "Then came the tug of war" in the last inning. Here the Olympics met with disaster, and retired with no addition to their 18 which they had at the end of the 8th, while the Boston Club scored 5, making the score stand at the end of the game 20 to 18. The following is the full score:

Sweasy and Glenn, of the Olympics, were unwell and did not play. Allison was disabled on the 8th inning and compelled to retire, his place as catcher being filled by Waterman, whose place on the third base was filled by a subsitute.

The Falls City Club will play a match game of base-ball this afternoon, at Cedar Hill, with the nine of the Sixteenth Regulars. The soldiers have some very good players in their nine, and some fine playing may be expected. Each club will appear in their neat uniform, and as this is the first match game played here this season, a large crowd will no doubt be present.

The game played at Fort Wayne, Indiana, Thursday, between the Kekiongas of that city, and the Forest City of Cleveland, is pronounced the finest ever witnessed in this country. The score stood 2 for the Kekiongas to 0 for the Forest Citys, although the latter did not make a single error, while the Fort Wayne Club made three.

The following is the score of the game:

Cleveland—Whitewashed.

Fort Wayne—One tally on second and fifth inning.

The Chambers Piano Can't be Beat—Read! Read!! Read!!!

MR. WILL S. HAYS: SIR—Having tried your beautiful "Chambers Pianos" I find them first-class instruments in every respect, and all that their manufacturers claim for them. They are, in my judgment and opinion, perfect in all that constitutes a really fine instrument. GEO. ZOELLER.

Louisville, June 26, 1870.

MR. WILL S. HAYS—SIR: After a thorough trial of your "Chambers Piano" I am satisfied it is good and perfect as the best. It has an elasticity in touch and brilliancy in tone which are seldom found in any other make of piano. I think it really a fine, first-class instrument, and so recommend it.

Respectfully, J. MUNOZ.

Louisville, Ky., June 30, 1870.

MR. WILL S. HAYS—A thorough trial and examination of the "Chambers' Pianos" has convinced me of their superiority over other pianos in sympathetic and even tone. Their very light and elastic touch, combined with power and beauty in all their parts, makes them unquestionably a very desirable instrument. Respectfully, &c., L. HAST.

Louisville, July 2, 1870.

[From the "Independent," New York, May 26, 1870.]

CHAMBERS' PIANOS—Chambers is one of the oldest and best piano makers in this country. His instruments are used by many of our leading amateur musicians and families, and are highly appreciated. They are rich, mellow, and powerful in tone, and peculiarly adapted to accompany the human voice, which, we think, is the best recommendation for a piano. They are sold at prices within the reach of all, and warranted to give satisfaction.

Price lists sent free. WILL. S. HAYS, 166 Fourth street.

GLENDOWER

The Magnificent Country Residence of Benson Ormsby, and

WILLOW GLEN,

The Beautiful Home of Harry Maxwell, Both at O'Bannon's Station,

AT AUCTION.

ON WEDNESDAY, May 17, 1871, I will sell both the above desirable places. Glendower, the residence of Benson Ormsby, is one of the most beautiful places in the environs of Louisville. The house is comparatively new, with all modern conveniences, two-story and attic brick, imposing in appearance, and finished in splendid style.

The yard, containing several acres of ground, is beautifully laid off in walks and shady retreats, abounding in fruits of every kind, selected without regard to expense. The outbuildings are probably superior to any in the county, and of capacity sufficient for the wants of a large family. This has always been regarded one of the best improved places in the county. This place was improved by a gentleman of fortune, and everything which would contribute to the pleasure and comfort of a family was provided.

40 acres of good land will be sold with the house. A bargain may be anticipated, as the owner is removing from the State.

WILLOW GLEN,

Adjoining Glendower, will be sold on same day. The improvements are a good two-story stone house with 8 large chambers, 4 servants' rooms detached from main house, all necessary outbuildings in good order, splendid spring and spring-house. The yard is very handsome and attractive, studded with beautiful fruit and forest trees; in short, a charming home.

With the residence will be sold 60 acres of land.

Also, on same day, adjoining Glendower, will be sold, 110 acres of land, subdivided into lots to suit purchasers. The land is undulatory and very fine, every lot possessing a beautiful site for residence. This sale should attract the attention of all classes of buyers, either for homes or speculation. The property must be sold. A special car will be provided for the occasion. Plats of property at my office. Terms of sale very liberal.

PORK HOUSE

AT AUCTION.

ON SATURDAY, May 13, 1871, at 3 o'clock p. m., we will sell, on the premises, to the highest bidder, without reserve, that fine pork-house property heretofore occupied by O. W. Thomas & Co. It is located between East Main and Franklin streets, at the northwest corner of Buchanan street. The grounds are ample for the most extensive pork-packing business, and the buildings comprise all that could be conceived requisite for such a purpose. The location of this establishment near to the termini of the Main street and of the Market street railroads, furnishes ready sale for the offal. The profits from this source alone last season, amounted to more than the amount of rent paid by the tenants.

A correct diagram of the property, showing its dimensions and measurements each way, will be exhibited on the premises on the day of sale, and the terms of sale will be then given.

The attention of pork-packers and of capitalists generally is invited to the rare opportunity for investment. HANCOCK, JOHNSTON & CO., Agents.
